

KING CONSTANTINE SILENCES HOPES

London Makes No Attempt to Minimize Serious- ness of Situation

MUST AWAIT ELECTIONS

Austro-German Mission is at Athens to Formulate a Definite Understanding

POSITIONS STILL UNMODIFIED

LONDON, Nov. 12.—Altho London refused to share the consternation which the dissolution of the Greek chamber has caused in France no attempt is made to minimize the seriousness of the situation nor to ignore the fact that King Constantine's action has put a definite quietus on all hopes of Greek co-operation in the near future.

Must Await New Elections.
The Greek king's suppression of the majority in the chamber, of which M. Venizelos is the leader, is not regarded here as a definite step toward the fulfilling a compact with the central powers. On the other hand the present situation makes it obvious that whatever kindly intentions Greece entertains toward the entente powers must await the new elections, which are more than a month off, for fulfillment. The report that Lord Kitchen, secretary of war, has been sent on a mission to King Constantine to whom he will offer new proposals, has received no confirmation but the coincidence of his departure with the king's resolution to dissolve the chamber makes the supposition plausible. The report also gains interest from the announcement from several sources that an Austro-German mission has already arrived at Athens to formulate a definite understanding between Greece and the Central powers.

Positions Still Unmodified.
At the same time the Roumanian king is said to be receiving deputations from both belligerents but the position of Greece and Roumania, despite diplomatic pressure, is still unmodified. Beyond the German announcement of the capture of passes of heights at Jasterbach, carrying slightly further southward the Serbian drive of the Austro-Germans, there has been no recent achievement on either side in the Serbian campaign. French cavalry patrols are reported to have surrounded Vele, but the Bulgarians still hold the town.

Field Marshal Von Hindenburg's campaign in the Riga-Dvinsk region appears to have definitely ended and the counter movement of the Russian armies under General Ruzsky is gaining momentum.

DUNNE SEEKS TO HAVE SMALL NUMBER OF WITNESSES AT HANGING

SPRINGFIELD, Ill., Nov. 13.—Governor Dunne is still endeavoring to extract a promise from Sheriff James A. White of Jackson county, that he will hang Elston Scott, a negro convicted of the murder of his sister-in-law, in a decent manner and in the presence of a few witnesses as possible. In a letter to the sheriff, made public today, Governor Dunne asked the sheriff to "please state the number of witnesses you intend to invite and the number of deputies you intend to deputize."

Scott's reprieve expires November 13, and unless Governor is satisfied the execution will take place in a manner satisfactory to him, he will reprieve the man again.

SLEET STORMS IN KANSAS.

Topeka, Kans., Nov. 13.—Flurries of sleet and snow driven by a cold northwest wind tonight were general over central and northern Kansas. Preceding the storm the temperature dropped nearly 20 degrees in an hour.

At 2:30 o'clock this morning reports on the Associated Press leased wire from offices on the circuit with the Journal showed sleet and snow storms at Cedar Rapids and Waterloo, Iowa, and rapid drops in temperature.

ST. LOUIS PLAYER INJURED.

St. Louis, Mo., Nov. 13.—Charles Wekenman, a football player on the St. Louis university team was seriously injured in the game with Washington University today when he was plucked thru the line. His skull was fractured and his spine was seriously injured.

PLAY FOOTBALL IN BARE FEET

Waxahachie, Tex., Nov. 13.—Football in bare feet was played here today by the teams from Waxahachie and Fort Worth high schools. The game started in the rain and the "black wax" mud soon was so thick the players had to remove their shoes and stockings to make any headway. Waxahachie won 6 to 0.

REPORT LAKE STEAMER LOST WITH ALL HANDS

MESSAGE RECEIVED AT DULUTH DOES NOT GIVE LOCATION

Checking up Steamers in Shelter at Various Points Does Not Reveal Whereabouts of Steamer Charles A. Luck.

Duluth, Minn., Nov. 13.—The Steamer Charles A. Luck, until recently known as the City of Berlin, has been lost with all hands, according to a report that reached here today. The message which was received late today does not give the location of the wreck. Confirmation is lacking.

Checking up steamers in shelter at various points does not reveal her whereabouts and the conclusion has been reached that she has foundered in the storm which swept the eastern end of Lake Superior during the first of the week. The vessel carried a crew of 15 men.

OWNER RECEIVES NO WORD.

Cleveland, O., Nov. 13.—No word has been received from the Steamer Charles A. Luck by her owners here since she passed into Lake Superior last Wednesday.

TWO COUPLES WILL CELEBRATE GOLDEN WEDDING AT MT. STERLING

MT. STERLING, Ill., Nov. 13.—Three couples were married here by a single ceremony Nov. 14th, 1865, and the two surviving pairs plan to hold a family reunion and golden wedding anniversary celebration here tomorrow. John Bliss and his two sisters, Mary and Salome were married simultaneously at St. Mary's church here. John married Catherine Schonen, and her brother Everett married Salome. Mary Diss married Nicholas Bernardy. The last two have since died.

The celebration tomorrow will be held at the home of the Schonsens, Mr. and Mrs. Diss now make their home in Murrayville, Mo. There are six children in the Diss family and four in the Schonen family. All are here for the party.

PRESIDENT AND FIANCEE EAT ROADSIDE LUNCH TOGETHER

WASHINGTON, Nov. 13.—President Wilson, his fiancée, Mrs. Woodhull, and her mother, Mrs. W. H. Bolling today ate a roadside picnic lunch together in the course of a 150 mile automobile ride which took them thru Baltimore, Westminster and many small towns and villages in Maryland. They returned after dark and had dinner together at the White House.

Soon after leaving Westminster the president's automobile was run up a side road and there the party ate the lunch they had taken with them from the white house. Farmers driving along the main road nearby noticed them and stood up in their wagons to get a better view of the picnic party.

DENY MRS. CLOSE WILL BECOME SOLE OWNER OF POST ESTATE

NEW YORK, Nov. 13.—H. C. Hawk, one of the executors of the will of C. W. Post and chairman of the executive committee of the Post interests, and A. B. Williams, also one of the executors and general counsel for the Post interests issued today the following statement:

"There is no disagreement between Mrs. Post (Mr. Post's widow) and Mrs. Close (his daughter). An amicable and mutually agreeable understanding exists. It is not true that Mrs. Post has been or will be cut off from participation in the estate."

This statement was in denial of reports from Detroit that Mrs. Close would become sole owner of the property of her father.

POST FOOD PRICES IN PARIS.

Paris, Nov. 13.—The government committee began posting through France today the retail prices for every classification of food.

The billboards in Paris today bear an order signed by Prefect of Police Laurent, prescribing exactly what shall be charged until the next public notice. Fifty four varieties of beef are specified with prices ranging from the equivalent of 14 cents to 44 cents a pound the metric pound being one tenth more than the American pound.

SALARIES ESSENTIAL IN DETERMINING RATES

San Francisco, Nov. 13.—Salaries paid public utility officials were declared today by the state railroad commission to be essential factors in determining proper rates, inasmuch as "the public pays the salaries when the public pays the rates," during a hearing on a petition of Wells Fargo & Co. for increased rates in California on packages of a hundred pounds and less.

A. A. U. OFFICIALS MEET

AT NEW YORK.
New York, Nov. 13.—Representatives of all the amateur athletic organizations throughout the country will assemble here tomorrow for the meeting of the national council of the A. A. U. The delegates will attend in a body the burial of the late James E. Sullivan, who directed the affairs of the A. A. U. for many years.

SUBMARINE HAS NOT YET REPORTED

Austrian War Office Has No Details Regarding Ancona Incident

PAGE RECEIVES REPORT

Only American Person Who Sailed on the Ancona Was Dr. Cecele Greil, Now at Tunis

PAGE CONFERS WITH SONONI

VIENNA, Nov. 13, via London.—No report has yet been received from the submarine which sank the Italian liner Ancona and it may be several days before one is available.

Meanwhile the Austrian war office has no details regarding the incident further than those contained in the Italian press. They point out that even these reports first admitted that the Ancona tried to escape and disregarded the signals of the submarine. It is considered virtually out of the question that the submarine sank the liner without warning. If it proves to be the case that the Ancona tried to escape the feeling appears to be the United States will not consider itself called upon to make any move. In any event, however, no actual complications are expected and there are no indications that either the government, the public or the press considers the matter as one to be dignified by calling it "a case."

The American embassy has no advice regarding the incident.

Ambassador Page Receives Report.

Rome, Nov. 13.—Thomas Nelson Page, American ambassador to Italy, has received a report from the British vice-consul at Tunis regarding the sinking of the Italian liner Ancona. It is stated in the report that the only American born person who sailed on the Ancona was Dr. Cecele Greil, who is at Tunis. Dr. Greil, who is 42 years old, is a resident of New York. She came to Italy six weeks ago to do Red Cross work.

A lengthy conference between Foreign Minister Sononi and Thomas Nelson Page, the American ambassador, is believed to have brought about a full exchange of views concerning the Ancona. The nature of the conversation has not been revealed, but there is reason to believe that the Italian viewpoint was fully represented reflecting a strong feeling that the sinking of the liner was such a flagrant breach of international law that neutral governments should adopt an energetic course to secure a complete reparation.

Ambassador Page was advised of the sinking of the Ancona today even before the official announcement was made public. This additional incident following closely that of the Ancona has increased official and public indignation.

U. S. Efforts Unavailing.

Washington, Nov. 13.—All efforts of the United States government to learn the circumstances under which the Italian liner Ancona was sunk with a loss, it is believed, of several American lives, thus far have been without result.

Ambassador Page has sought information at the Italian foreign office and American consuls have been instructed to gather details, but on the important point—whether the attacking submarine was Austrian or German, and what opportunity was given passengers to escape—nothing official has been received. Altho it was believed at first the Italian censorship was responsible for the delay, officials now are coming to believe the inaccessibility of those who were rescued and the conflicting and incoherent statements made by them have caused Italian authorities to make a thorough investigation before furnishing Ambassador Page with a report.

COMMERCIAL SECRETARIES MEET

Decatur, Ill., Nov. 13.—The Illinois Commercial Secretaries association, with 14 members present, met in Decatur today. Problems that confront secretaries were discussed. The next meeting will be in Bloomington, Feb. 24th. H. F. Miller of Chicago, president, and J. H. Hudson of Bloomington, secretary, were re-elected.

PERMITS CONCENTRATION OF RECEIVERSHIP SUITS.

St. Louis, Mo., Nov. 13.—An order issued in the Federal District court here today, permits the concentration of the two receivership suits against the Missouri, Kansas & Texas railway. The court also granted permission to the Central Trust company to file a bill of complaint for the foreclosure of mortgages given to a bond of \$30,000,000.

ESTIMATES RUSSIAN DEFICIT.

Petrograd, Nov. 13.—via London, Nov. 14.—Pierre L. Bark, Russian minister of finance, in a preamble to the budget for 1916, estimates the general deficit at about \$27,000,000 rubles (\$163,500,000) which will be covered by credit operations.

TELEGRAPHIC BRIEFS

SIDNEY, Ia., Nov. 13.—The jury in the case of Mrs. Lucinda Bailey, charged with killing her husband at their home in Percival, Ia. last June, this afternoon returned a verdict of manslaughter. The case went to the jury late yesterday.

LONDON, Nov. 13.—Much havoc was caused on land and sea by the fierce gale which raged last night. A considerable loss to shipping resulted for the most part along the west coast but no loss of life has thus far been reported.

CHICAGO, Nov. 13.—Stanley Brabec, who dived 13 stories down an elevator shaft here last night, was doing well at a hospital today. The fall did not even deprive him of consciousness or the power of speech.

CHICAGO, Nov. 13.—The state board of arbitration has obtained the assent of Judges Marcus Kavanaugh, Lockwood Honore and Charles M. Walker to act as an arbitration board to attempt to settle the differences between striking garment-workers and their employers.

NEW YORK, Nov. 13.—The statement of the actual condition of clearing house banks and trust companies for the week shows they hold \$193,845,370 reserve in excess of legal requirements. This is an increase of \$1,744,870 over last week.

MILAN, Italy, Nov. 13, via Paris, Nov. 13.—A Genoa despatch to the Secolo says the Italian government has decided to fit out and use German liners which are interned in Italian ports. Three or four of the vessels at Genoa alone have a total tonnage of 32,000.

ROME, via Paris, Nov. 13.—The Italian steamer Firenze, 3,973 tons gross, has been sunk by a submarine. Twenty-seven passengers and ninety-six members of the crew were saved. Six passengers and fifteen of the crew are missing.

SALIDA, Colo., Nov. 13.—Nine passengers and three dining car employees were slightly injured when two sleeping cars and the dining car of Denver and Rio Grande passenger train number four, east bound, was derailed early today about seven miles west of here.

DAVENPORT, Ia., Nov. 13.—Phil McNeill, 19 years old, a student at Ames college, was killed here last night while beating his way on a train. McNeill with Hugh Cassidy and three other Ames students left the college Friday morning to go to the Iowa-Ames football game at Iowa City today.

CHICAGO, Nov. 13.—Five years' time and an expenditure of approximately \$27,000,000 is required for the thorough rehabilitation of the Chicago, Rock Island and Pacific railroad company, now in the hands of a receiver, according to the special report of J. W. Kendrick, made public here today.

NEW YORK, Nov. 13.—Five minutes before the steamship St. Louis of the American line left here for Liverpool today, a man giving the name of Abraham Cummings, who declared he was a British subject, was arrested at the Third class gangway for having in his possession two sticks of dynamite. He was taken to police headquarters.

DAVENPORT, Nov. 13.—Rev. William Jacoby of West Point, Ia., who has served as a priest in the Catholic diocese of Davenport, long retired, according to an announcement made by Bishop James Davis here today. He has been at West Point for forty years and will continue to reside there. He is succeeded by Rev. H. Grote of Harper, Ia.

TAKE MANY SERB PRISONERS.

Berlin, Nov. 13.—By wireless to Sayville, N. Y.—The following statement regarding the situation in Serbia was given out today by the Overseas News Agency: "Despatches from the Serbian front give descriptions of the military organization. During the recent Austro-Hungarian-German-Bulgarian advance more than 24,000 Serbians were taken prisoner. There were 40,000 Serbians already in Austro-Hungarian hands. The Serbian army on a war footing numbers only 300,000."

DENIES PUBLISHED CHARGES.

Washington, Nov. 13.—Baron Zwiadinek, charge of the Austro-Hungarian embassy called at the state department today and denied in person for his government the published charges of Dr. Gorlick, formerly of the Austrian consular service, that Austrian consulates in the United States were hotbeds of propaganda for fomenting strikes in munitions plants.

BELLO COUNTY, TEXAS "DRY."

Temple, Tex., Nov. 13.—Bello county voted "dry" today in a local option election by a majority of 473. The total vote cast was 6,295. Three years ago the city went "wet" by a majority of 114.

SAYS CHARGE IS ENTIRELY UNFOUNDED.

Providence, Nov. 13.—Dr. Dorlick tonight when shown the statement given to the state department at Washington said that the charge against him was entirely unfounded.

POLICE SKEPTICAL OF CONFESSION

Burke Spends Day Trying to Convince Officers He Killed Voorhees

IMPLICATES THREE MEN

Declares He Murdered Broker to Show M'Goorty He Was a "Game Guy"

EVERY DETAIL IS BORNE OUT

CHICAGO, Nov. 13.—John Burke spent all day today trying to convince the police he murdered Franklin R. Voorhees, war supply broker, and by night had about succeeded. Burke was brought here from Cedar Rapids, Iowa, where he told the police he killed Voorhees. The Chicago police met him skeptically, thinking him either seeking transportation or wanting to satisfy a craving for the limelight.

Today he led the police over the route he says he and three companions took the day of the Voorhees death and astonished the police with the wealth of his knowledge of localities around the scene of the crime. Detective Sergeant Kane announced tonight he was convinced Burke's confession was true. Every detail of Burke's statement of his shooting of the broker was borne out even to the location of the board he says he fell over in escaping.

Some of the police believe however, that Burke's familiarity with the scope of the crime is due to newspaper accounts of the shooting and will demand further proof before accepting him as the murderer. Burke implicated Frank McGoorty, William Gilbert and John Mahr. None of them is known to the police. He said McGoorty planned the trip to Voorhees' home and after the broker had been shot, asserted that he had been promised \$1,000 to kill him.

Burke said he always has lived in cheap lodging houses and never had been successful even as a crook and that his chief purpose in associating with McGoorty had been to get him standing with smarter thieves. He killed the broker, he said, to show McGoorty that he was a "game guy."

GIRL ADMITS FIANCEE EXISTS ONLY IN HER IMAGINATION

Miss Crumley Tells Physician Identity of Body Brought by Her From Chicago to Atlanta, Ga., is Unknown to Her.

Atlanta, Ga., Nov. 13.—"Dr. Alayne Hensley" announced in formal wedding invitations and society columns of local newspapers as the fiancée of Miss Julia Choate Crumley, a music teacher of this city, existed only in Miss Crumley's imagination. Not until she had gone to Chicago, identified the body of an unknown man killed in a railroad accident and shipped it here as that of Dr. Hensley, did her family and friends suspect anything unusual. She is being attended by nerve specialists today at the home of her father, the Rev. Howard Lee Crumley.

Contradictory statements made by Miss Crumley after she arrived with the body led close friends of the family to call a physician who had known her for years. It is said today that she stated to him that Dr. Hensley was a creature of her mind and that identity of the body now at an undertaking establishment here was unknown to her.

FIND DR. MONTAGUE DEAD.

Winnipeg, Nov. 13.—Dr. M. H. Montague, formerly minister of public works of Manitoba and who recently was committed with three other ministers for trial charged with conspiracy to defraud the Province of Manitoba, was found dead in his room in a hotel here today. Death presumably occurred from heart failure.

ADJOURN UNTIL MONDAY.

San Francisco, Nov. 13.—Further delay by fifteen convention committees in preparing their reports caused the American Federation of Labor in convention here to adjourn today until Monday, after a session that lasted less than an hour. One hundred and fifty three resolutions were in the hands of resolution committees. Discussions of them was expected to be the center of interest during the early part of next week.

SUBMARINES REACH FRISCO

San Francisco, Nov. 12.—A submarine fleet which left Honolulu, October 29th arrived here late today. The voyage was expected to last ten days and fresh food on the little boats was used up some days ago.

BRITISH CRUISER CHASES DANISH SHIP

DARKNESS AND THICK WEATHER EN- ABLES VINLAND TO ESCAPE

First Officer Declares That at No Time Was Ship Outside Three-Mile Limit During Chase from New York to Delaware Breakwater.

Norfolk, Va., Nov. 13.—The Danish steamer Vinland which arrived in Hampton Roads today was chased by a British cruiser within the three mile limit for more than 17 hours after leaving New York last Wednesday for this port, according to a story tonight by First Officer Thuroe.

The Vinland left New York at four o'clock in the morning Thuroe said, to load a coal cargo at Norfolk for South America. The cruiser, he said, appeared soon afterward and gave chase. Darkness and thick weather, according to the first officer's story, enabled the merchantman to elude her pursuer. The Vinland remained anchored until morning where she had taken refuge off Delaware breakwater and when the fog lifted next day the warship was not in sight.

Thuroe maintained that at no time was the Vinland more than a mile and a half off shore.

CAPTAIN KANE IS PRINCIPAL WITNESS IN CAMPBELL TRIAL

JOLIET, Ill., Nov. 13.—Capt. Michael J. Kane was the principal witness for the state today in the trial of Joseph Campbell, charged with the murder of Mrs. Odette Allen, wife of the former warden of the state prison here. He told of the turmoil in the prison on the morning the tragedy was discovered. He said he was unable to recall whom he had ordered to do certain things in connection with the affairs in the warden's office.

"I was excited," the captain said, "and never thought to look at my watch during the fire. I don't remember a face I saw until I ordered Campbell and Edwards to take charge of the warden's apartments."

PRINCIPAL FEATURES OF TREATY WILL BECOME EFFECTIVE AT ONCE

WASHINGTON, Nov. 13.—Because of disturbed conditions in Haiti principal features of the new treaty between that country and the United States will be put into operation at once, though it has not yet been ratified by the United States senate. The Haitian senate has accepted the convention, which provides for supervision by the United States over Haitian finances. First among the steps to be taken will be the organization of the Haitian gendarmerie composed of natives and officers by Americans. Control of the custom houses already practically in American hands and it is expected by officials here that by the time congress meets all of the new machinery of government in Haiti will be running smoothly.

BELIEVE BANDS HAVE BEEN BROKEN UP.

Brownsville, Texas, Nov. 13.—As a result of two weeks' quiet on the lower Texas border the belief prevails that the outlaw bands which have wrought havoc at various times since last July, killing American soldiers and citizens and destroying property have been broken up. Hardly more than a dozen bandits remain alive or in Texas, according to persons in close touch with the hunt for the outlaws.

CONVICT TWO CHRISTIAN SCIENCE PRACTITIONERS.

Berlin, Nov. 13, via London, Nov. 14.—Two practitioners of Christian Science, Elisabeth Ahrens and Elisabeth Huesgen have been convicted of criminal carelessness and sentenced to six months imprisonment in connection with the death of Nuschka Jutze and Alice Von Arenaud, two popular actresses of the royal theater.

CLAIMS VESSEL WAS IN TERRITORIAL WATERS

New York, Nov. 13.—How the American Steamer Zealandia was boarded and searched on Nov. 5th by officers and sailors from a British cruiser afterward said to be the Isis, while lying at anchor northwest of Progreso, Mexico, is told by Paul Devautier, the steamer's captain, in a statement made public here today by the Fiske Trading company, the Zealandia's owners.

Captain Devautier claims his vessel was within the three mile territorial waters of Mexico.

GRANT RATE INCREASE.

Jefferson City, Mo., Nov. 13.—The state railroad commission has granted the railroads increases of five per cent in freight rates and permission to charge a fare of 2 1/2 cents a mile on one way tickets, 2 1/4 cents a mile on round trip tickets and fixed a rate of two cents a mile on mileage books for 500 or 1,000 miles.

REFUSE TO ACCEPT PACKAGES.

Washington, Nov. 13.—A formal order was issued today by the post-office department directing postmasters hereafter to refuse to accept parcel post packages for Germany and Austria-Hungary. The order was necessitated by the refusal of the steamship company which has been carrying parcel post mail for these countries to accept such mails any longer.

TO TURN RAILWAYS OVER TO CIVILIANS

Carranza Issues Decree to Become Effective December Sixth

URBALEJO IS DEFEATED

Calles Receives Dispatch Stat- ing That Yaqui Indians Are Routed at Carbo

UBREGON GOES TO DOUGLAS

WASHINGTON, Nov. 13.—Railways thruout Mexico will pass from military to civil control Dec. 6, under a decree from Gen. Carranza, head of the defacto government, transmitted today to its agency here. Advice to the state department continued to report improvement of general conditions in Mexico.

The report added that raiders under Carrera Torres and the Cedillo brothers were committing depredations east of Ciudad del Maiz, but the Carranza troops had kept them away from the railway and the larger towns and had reduced their number from 4,000 to about 1,500.

Diguez Defeats Yaqui Indians.
Douglas, Ariz., Nov. 13.—Gen. P. Elias Calles tonight announced the receipt of an official dispatch stating that Gen. Francisco Urbalejo, commanding Villa's Yaqui Indians defeated Thursday by Gen. Diguez at Carbo, thirty miles north of Hermosillo.

Gen. Calles stated that the dispatch said the Yaquis were retreating northward in disorder and that an engine was sent by Villa from Nogales to bring the artillery section north.

According to Calles, Urbalejo has about two thousand men while Diguez had 8,000 men with 6,000 reinforcements en route from Guaymas. Withdrawal of practically all Villa forces southward from the border at Nogales, Sonora was reported to Gen. Calles tonight. Col. Lazaro Cardenas with 1,000 men was reported attacking the rear guard. A skirmish yesterday between small forces of Carranza and Villa troops resulted in the withdrawal of the Villa forces and the occupation of Cumapas by the Carranza troops according to Calles.

Obregon Goes to Douglas.

Nogales, Ariz., Nov. 13.—Gen. Alvaro Obregon, the Carranza military commander who arrived here yesterday supposedly in an endeavor to induce the Yaquis in Gen. Villa's army to desert to Carranza, left Nogales late today for Douglas. Gen. Villa and his entire force of about 4,000 left Nogales, Mex., opposite here today for Magdalena, where he will confer with Gen. Urbalejo commander of the Yaquis' contingent.

Before leaving, Villa made a short speech in the plaza to a large crowd and his secretary read a long address outlining the principles of the Villa cause.

It was reported here the Villa garrison at Naco, with the exception of about 100 men left for the south, their destination probably being Hermosillo.

Skirmishes Occur Near Tula.

Laredo, Tex., Nov. 13.—Skirmishes between Carranza soldiers and roving bands of guerrillas occurred yesterday near Tula, Tamaulipas. The defacto forces in northeast Mexico are centering their efforts on wiping out the organized bands of marauders.

WANTS FEDERAL INVESTIGATORS.

Clifton, Ariz., Nov. 13.—Guy Miller, a union organizer sent a telegram to Samuel Gompers, president of the American Federation of Labor, asking the federation to request William B. Activity resulting from the manu-
facture of war munitions in this
country touches business in a great
variety of ways. Turning between
Elton and East Alton is a train which
formerly consisted of an engine and
two coaches and the passengers were
few and far between. Now the train
consists of ten coaches and two more
will soon be added to the service,
all of this business having developed
because of unprecedented increase in
the number of employees at a number
of East Alton plants now engaged in
manufacturing supplies to fill war
orders.

According to a resolution passed at
Rockford where the Illinois Federa-
tion of Women's clubs has been in
session, the Star Spangled Banner will
hereafter be sung at the sessions of
many individual clubs. An effort
was made to have an order which
would make the singing of this hymn
obligatory at every meeting of a fed-
erated club, but this was voted down
and the singing was left to the good
judgment of the several clubs. The
order or enforcement would have
been foolish and defeated its own
end, for patriotism of the enforced
kind will never flourish and to sing
a national hymn according to rule
or system would have a tendency to
make it a paean of mockery rather
than of patriotism.

Only occasionally have blood-
hounds been locally successful in
tracking offenders against the law,
and even when successful, it has
sometimes been impossible to use
the evidence. But bloodhounds oc-
casionally prove their value in locat-
ing runaways of another kind. Near
Waterloo, Ill., one day this week, a
young man who had been in poor
health wandered away from his home
and walked a distance of twenty-five
miles. Hounds were placed upon his
trail and followed it correctly for
the entire distance. At one point the
young man had mounted a passing
wagon and the dogs lost the trail for
a distance of several miles, but were
able to locate it again. In the south
the custom of using dogs for track-
ing both criminals and runaways is
more prevalent and successful than
in the remainder of the country.

Establishing Testimony.
How much trouble and expense
there is necessary sometimes to es-
tablish a fact to the satisfaction of
the courts under laws of the United
States was evidenced recently in a
trial at Philadelphia. It was in the
suit of the United Fruit company
against a steamship line and in-
volved a large fund. An officer of
the steamship company was sum-
moned from Honduras and traveled
by sea and rail for a distance of
2,400 miles in order to be in at-
tendance at the court.

Arrived it was necessary for him
to wait several days before his turn
came to appear on the witness stand.
Then a certain document was handed
to him and the attorney asked him,
"Is this your signature?" The answer
came quickly, "Yes, sir," and the
witness was excused. Just two words
was all that was wanted from this

WISHES.

If wishes were moters, the beggars
would ride, and throw on us voters
the dust, in their
pride. But wishes
won't carry a man
to his goal, and
beggars must tar-
ry down there in
the hole. "I wish,"
sighs the ditherer,
the creature of
brawn, "that I was
some richer
than Andy or
John. But Fortune
is spurning a poor, honest jay, and
I'll go on earning a dollar a day." If
he had quit wishing and dreaming
his dream, and spent some time fish-
ing at Knowledge's stream; if he'd
made endeavor to master some trade
he would not forever be wielding a
spade; he would not be sweating in
gumbo and clap, intent upon getting
his dollar a day. If wishes were
horses the beggars would ride, but
down where remorse is the beggars
abide. A wish is a daisy when backed
up by toil, but if you are lazy
your wishes will spoil. Your wishes
are dizzy if idly they grew, but if
you get busy they'll likely come true.

witness, but his testimony was
judged essential to establish the
authenticity of the document. There
is no other way than to have the wit-
ness present in the court room, altho
the journey on which he came in
added to the expenses of the trial
and expensive. This is only one of
the examples of the exactness neces-
sary in court procedure.

The End of a Fashion.

The most sudden and summary
ending of a fashion occurred three
hundred years ago tomorrow, with
the hanging of Mrs. Turner, one of
a number of persons executed at
Tyburn for the conspiracy which
brought about the death of Sir Thom-
as Overbury. This woman had made
herself famous in the fashionable
world in England as the inventor of
a yellow starch, for which there was
an immense demand.

Lord Chief Justice Coke, in sen-
tencing the woman to die on Novem-
ber 15, 1615, upbraided her in the
most severe terms, telling her that
she had been guilty of the seven
deadly sins and that she was the in-
ventor of yellow starched ruffs and
cuffs, so he hoped she would be the
last by whom they would be worn.
He gave strict orders that she should
be hanged in linen, starched in the
color she had rendered so fashion-
able.

This phase of the hanging was
carefully carried out. On the day of
her execution, Mrs. Turner came to
the scaffold with her face rouged
and a ruff stiffened with yellow starch
round her neck. The object contem-
plated by Coke was attained. The
yellow ruff was worn no more from
that day.

A Christmas Custom That Should be Revived.

"Old, very old in England," we
read in the December issue of the
Woman's Home Companion, "is the
custom of setting lighted candles in
the windows on Christmas Eve to
give holiday greeting to the pass-
ing, but little use has been made of
this charming idea in our country.
Baltimore, however, has had a city-
wide lighting of candles which was
so successful that it is repeated ev-
ery year.

"Weeks before Christmas, when
plans were being made for the Com-
munity Tree, it was suggested that
each household set lighted candles
in the parlor windows to wish 'Mer-
ry Christmas' to their fellow town-
people, not even the most enthu-
siastic supporters of the Candle Greet-
ing expected to see half the number of
windows that were so lighted when
Christmas Eve came.

"Scarcely a city block in any sec-
tion of the city was without at least
one illumination, and it was not rare
to see every house in a row bright-
ened by this evidence of 'peace on
Earth, good will to men.' It warn-
ed the very cockles of one's heart
to walk thru street after street with
these silent Christmas greetings ev-
erywhere, and no one who has come
thru such experience could ever want
to know another Christmas Eve with-
out them."

Governor vs. Sheriff.

Sheriff White of Murphysboro ac-
cording to published interviews,
seems inclined to resent the inquiry
made by Gov. Dunne about the plans
the sheriff has in connection with
the coming execution of Nelson Scott,
scheduled for next Friday. Follow-
ing the disgraceful climax of the
hanging of DeBerry at Murphysboro
a few weeks ago when more than
600 citizens were sworn in as depu-
ties and thus permitted to witness
the hanging, the governor took the
sheriff severely to task and granted
a reprieve to Scott in order to make
sure that a repetition of the scenes
which characterized the DeBerry
hanging did not occur.

The sheriff has given an evasive
answer to the governor about his
plans for the next execution and it
is very probable that the governor
will take some steps to have the cer-
tain assurance that the execution de-
tails are in accord with custom. A
great many people of the state do not
agree with Gov. Dunne's views which
are opposed to capital punishment,
but the great majority will approve
his present effort to be certain that
nothing is done at the coming execu-
tion which is detrimental to the
good name of the state or to public
morals, and the details of the De-
Berry execution certainly could be
classed as detrimental to both.

Neutrals Must Bring Peace.

As the war in Europe grinds on
it becomes more and more apparent
that any definite movement for
peace must be expected from neu-
trals rather than from belligerents.
For that reason a great deal of
hopeful interest attaches to the
announcement recently made by
David Starr Jordan, who is head of
the International Peace congress,
that a quasi-official meeting of neu-
tral nations will be held some time
before Christmas, probably at the
Hague or in Copenhagen, in an ef-
fort to bring about peace. A resolu-
tion from the peace congress urged
that the president will accede for
trials in bringing this conference to
pass and there is little doubt but
that the president will accede for
he has stated time and again his
great desire that the pathway might
be opened where this country could
be of service in bringing the warring
nations to an understanding.

While the leaders in the European
countries are bending effort to a
successful continuation of the war
and are laying their plans for a
campaign to run for many months
yet, the mere knowledge that they
are human beings is sufficient
ground for a statement that they
would welcome peace. It sometimes
happens that familiarity with crime
breeds contempt for it, but the same
principle can apply only in limited
degree with those who have come
into an intimate touch with the hor-
ror and suffering attendant upon the
present conflict. They may be

in a measure steeled to the awful-
ness of war, but the continued re-
pression of all feeling on this sub-
ject is not to be beyond human en-
durance.

Then we can judge the people
across the sea somewhat by our own
standards, for while they live in
countries differently governed from
our own—in countries where mili-
tarism occupies a different place
than in our own, they nevertheless
are Christian nations and their
standards of life and morals are
very similar to our own. It will be
very fitting that the proposed con-
ference be called to convene near
the Christmas time, for as the great-
est gift the world has ever known
was given a little more than nine-
teen centuries ago, peace now, with
half the world at war, would be a
gift, which with all reverence, might
be rated as only of secondary value.

**MRS. READ'S SINGING
PLEASED AT MINNEAPOLIS**
Mrs. Helen Brown Read who has
recently returned from Minneapolis,
where she appeared as soloist with
the Minneapolis Symphony orches-
tra, received high praise from the
press of that city. The Minneapolis
Journal of Nov. 7 said: "The soloist
was Mrs. Helen Brown Read, an
American soprano of European ex-
perience, who is a possessor of a
clear and beautiful voice. Her first
number was Elza's Dream from Lo-
hengrin. In Elizabeth's great aria
from Tannhauser the singer was no-
ble and masterful—finely done was
Bruch's 'Ave Marie' from 'The Cross
of Fire' and the Boat song by Har-
riett Ware was sung as a second ex-
tra.

The Minneapolis Tribune said:
"Mrs. Helen Brown Read proved an
accepted soprano, singing with style
and intelligence. Her first number,
Elza's Dream, from Lohengrin, was
followed by 'Dich Theure Halle',
the equally big aria by Tannhauser
as an encore. Her second number
was the passionately lovely 'Ave
Maria' from Bruch's 'Cross of Fire'
to which as an encore she sang Har-
riett Ware's pretty boat song, its
accompanying wavelets being heard
in the harp and flute."

SYMPHONY ORCHESTRA COMING TO THE GRAND.

Music lovers as well as musicians
hereabouts will be greatly interested
to know that the St. Louis Sym-
phony Orchestra comes to the Grand
Wednesday, Nov. 24. This orches-
tra, which is regarded as one of
the four greatest symphony orches-
tras in America, consists of seventy-
five professional musicians under the
direction of Max Zach who will give
one of the wonderful programs for
which he is noted throughout
America.

Conductor Zach is regarded as
one of the most artistic program
makers in America, and the audi-
ences which listen to his concerts
three times each week in St. Louis
are of the opinion that no conduc-
tor in the world can arrange better
ones. The choice of compositions,
their arrangement, and the general
homogeneity of the program, are
such as invariably to lead the list-
ener gradually from one subject de-
picted by one composer to that elab-
orated by another until at the end
he feels he has been listening to
several presentations of the same
general theme. There is none of
the hasty re-arrangement of ideas,
no quick adjustment of view point,
for the Zach program that usually
is necessary for the attendants at
the concerts conducted by other or-
chestra directors who strive for var-
iety rather than homogeneity in
their programs. The program here
will be no exception to this rule.

NEW FOUNDRY COMPANY.

A news item in the Journal yester-
day made an incorrect statement
about the business of the Kellogg
Bros. Machine company and the A.
W. Bambrook foundry. The facts are
that Amos W. Kellogg has purchas-
ed the Bambrook foundry, and has
associated with him William Fair-
lee. They will conduct a business
under the name of the Jacksonville
Foundry company and expect to de-
velop it to larger proportions than
in the past. Mr. Bambrook has done
a satisfactory business at the foundry
for a great many years, but the
new owners think the business can
be developed in a larger way. The
purchase of the property includes
the building owned by the Kellogg
Bros. Machine & Boiler Works but
has no effect upon the business of
that concern whatever.

DEMONSTRATION

Nov. 18th

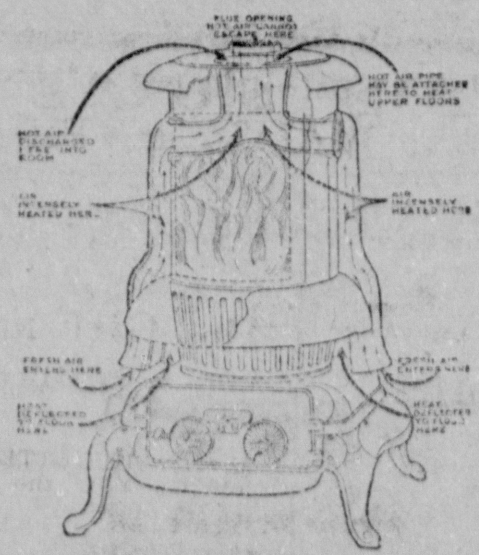

Don't fail to see this wonderful Heater demonstrated by an expert, Mr. C. E. Draper.

The wonderful new system of hot air heating that brings the comfort and convenience of a furnace heated home within everybody's reach, will be demonstrated and thoroly explained by an expert from the Estate Stove Company.

North Main St. Both Phones

The diagram shows how it works

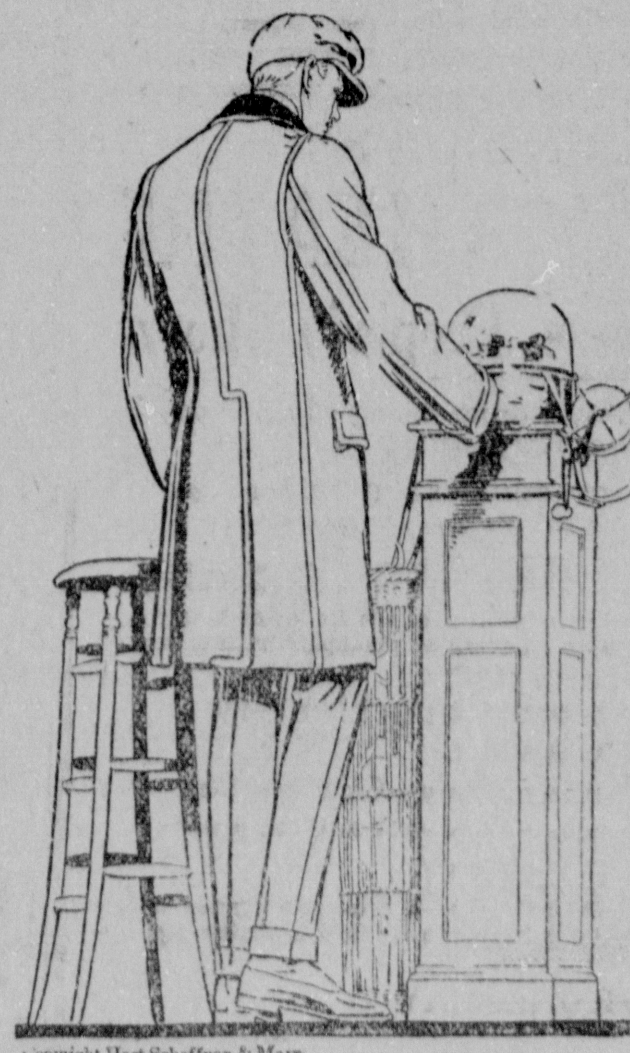

Fresh air (just as with a furnace) is drawn in at the sides, heated evenly to several hundred degrees temperature, and discharged—nor through the flue and chimney, but through the top of the hot-air chamber into the room. This creates a thorough circulation of hot air that will successfully heat several rooms. Even the upstairs rooms can be heated by the aid of a simple pipe connection.

ILLINOIS WON FROM LINCOLN

GAME ENDED IN A SCORE OF 32

Coch Harmon Used Second String
Men for Three Quarters and They

Illinois college won from Lincoln
college yesterday afternoon by a
score of 32 to 7 at Lincoln. The
game was witnessed by only a small
crowd, altho the day was ideal for
the players and for the spectators.

Coch Harmon started ten of his
second team men in the game at the
beginning, Thiebaud, right guard be-
ing the only regular man in the line-
up. The second string men played
thruout the first half and nearly all
of the third quarter, when the first
team men were sent in. It was dur-
ing the first quarter that Lincoln
made their touchdown. Lincoln had
carried the ball to the 8 yard line,
then on a forward pass, the ball was
hit by Illinois and Lincoln players at
the same time, the ball bounced up
in the air, was grabbed by Holmes of
the Lincoln team who went over for
a touch down. Holmes kicked goal.

The regular men were substituted
for the last five minutes of the third
quarter and in that time made two
touch downs. The first was made by
a series of long gains by Stewart, Al-
ford and Helmle, the latter carrying
the ball for a touchdown after a
thirty yard run. The second touch-
down was made by Helmle, on a run
from Lincoln's 18 yard line, running
the length of the field with the en-
tire Lincoln team after him. Frisbie
missed goal on both attempts.

In the fourth quarter Illinois made
three more touch downs. The first
was one made after two plays after
Illinois got the ball. Mitchell made
40 yards and Helmle 40 more for a
touch down. Frisbie kicked goal.
The fourth touch down was made by
Mitchell on a run of 25 yards, Fris-
bie missed goal. The last touchdown
was made in one play. Illinois kicked
to Lincoln, Lincoln fumbled the ball.
Stewart shot a thirty yard pass to
Frisbie who ran 20 yards for a
touch down. Frisbie kicked goal.
Score: Illinois, 32; Lincoln, 7.

The people on the sidelines would
not believe that Illinois was using
their second team and after Lincoln
had scored their first touch down
they thought that the "champs" were
going to have rough sledding. The
game afforded a good opportunity for
the second team men to get into ac-
tion and they gave a good account of
themselves.

Decatur, Ill., Nov. 13.—Playing a
terrific plunging game with an oc-
casional forward pass and end runs, Il-
linois Wesleyan swept Millikin off its
feet today by a score of 21 to 3. At-
ter Quarterback Johnson made a six-
ty yard run for Millikin, shortly
after the kick off and placed the ball
where Catlin registered a place kick.
Wesleyan came back and outclassed
the locals.

THE JAPANESE THANGSGIVING.
Tokio, Nov. 13.—The Great Har-
vest Festival, the Japanese Thangsgiv-
ing, is to be observed thruout the
Empire tomorrow. The main cele-
bration is at Kyoto, where, in honor
of the new Emperor, Yoshihito, the
sacred ceremonies of the Daijosi
will be carried out. The Emperor
as the ruler of the Land of Sacred
Rice, which was bestowed by his
heavenly ancestors, offers a feast to
his ancestral gods, and himself par-
takes of the sacred food.

The Emperor is today performing
one of the most sacred rites incident
to his coronation. A service dedi-
cated to the purification of the soul and
body of the Mikado, also all mem-
bers of the imperial family, is being
conducted with the pomp and grand-
eur of oriental custom. Three court
feasts, to which the foreign diplo-
mats will be invited, are to follow
tomorrow's festival.

CHURCHES TO PRAY
FOR WAR SUFFERERS.

Tomorrow is a day of prayer in
behalf of the Armenians and other
races who are extreme sufferers on
account of the European war, in
thousands of churches thruout the
United States. The day was set by
the Federal Council of the Churches
of Christ in America. "The cry from
the Near East at this moment," the
announcement states, "not only
reaches the heart of humanity, but
profoundly stirs our sense of obli-
gation and responsibility."

MAVERICKS

(After the manner of Ben King
with apologies to his memory.)

If I should die tonight
And you should come
To my cold corpse and say,
Weeping and heartsick o'er
My lifeless clay
That Jacksonville had won a
Football game,
I might arise in my large
White cravat and ask,
What's that?

If I should die tonight
And you should come
To my cold corpse and kneel,
Clasping my bier to show
The grief you feel.

I say if I should die tonight
And you should come to me
And there and then,
Just even hint that
Jacksonville had won a game,
I might arise the while;
But I'd drop dead again.

GREENFIELD HIGH CANCELS GAME WITH JACKSONVILLE

Superintendent Suft of Greenfield
Writes that the Football Team has
Been Disbanded for the Rest of the
Season.

Thru a letter received by Supt.
Collins Saturday it was learned that
Greenfield had disbanded their foot-
ball team for the remainder of the
season and asked that the date for
the game with Jacksonville on Nov.
20 be cancelled. The letter was from
Walter C. Suft, superintendent of
schools at Greenfield.

It is understood that the citizens
of Greenfield had a hand in the dis-
banding of the team, and then too
there has been a whole lot of rag
chewing, both orally and in the pa-
pers between Beardstown and Green-
field, since the latter team was de-
feated at Beardstown. The contro-
versy came to the point where per-
sonalities were indulged in.

Greenfield has been playing some
great ball this fall and for the past
few years they have had a wonder-
fully strong team. Jacksonville would
not have been much of a match for
them. As the schedule now reads,
Jacksonville's only remaining game
is here on Thanksgiving day with
Pawnee high school as the opponent.

CLUB WOMEN HEAR OF PUBLIC HEALTH WORK

STATE MANAGER GIVES ADDRESS ON RED CROSS SEAL SALE.

Enthusiastic Gathering Welcomes Arthur J. Strawson Who Appears With Message of Hope and Cheer—Social Hour Follows Regular Business of November Meeting.

The Red Cross Seal campaign which opens Monday, Nov. 15, and the large work for good which the sale of the seals has wrought in the past, formed the theme of a highly interesting talk Saturday afternoon by Arthur J. Strawson, of Springfield, state campaign manager, speaking to members of the Jacksonville Woman's club assembled for the November meeting of the club Saturday afternoon at Academy hall. After the program, the audience went to the library and spent a social hour. It was an enthusiastic group of women who attended the meeting and the success of the afternoon was especially gratifying to members of the committee on public health, in whom was placed responsibility for the November gathering.

Tea was served in the course of a pleasant social time. Mrs. Rollin H. Tanner and Mrs. George H. Stacy poured and Misses Hazel Claus, Pauline Herman, Geraldine Sieber, and Charlotte Sieber and Mrs. H. C. Clement, served. The hostesses were members of the social committee: Mrs. Frank J. Hehl, Mrs. E. G. Caldwell, Miss Laura Hayden, Miss Grace Carter and Mrs. Thomas Worthington, chairman.

New Membership Plan. After the preliminary business, the president made announcement of a plan by which the membership in the Jacksonville Woman's club may be placed at large in any of the regular woman's organizations throughout the county. The payment of the accustomed fee for dues will thus enable one member to attend the monthly meetings of the club from any of the rural organizations and allow her to bring another from the community as a guest. The Strawson's Crossing Woman's club has assured the Jacksonville body of its co-operation by subscribing to the plan and taking a membership. Mrs. A. L. Adams as chairman of the public health committee, took charge of the meeting on the completion of regular business.

T. W. Davies, manager of the Passavant hospital campaign, was present and gave a short talk with regard to his work. He gave a brief outline of the plan to be pursued in Jacksonville and expressed hope for strong support on the part of the club.

A number of children from the open air school pleased the audience with the singing of "Mother Mine." Miss Hammond, the teacher in charge, gave a brief sketch of the school's purpose and plan, citing the case of one child who gained in two weeks a total of eight pounds. Other cases in which great improvement, both in physical condition and ability in study, made by students at the school were mentioned by Miss Hammond.

Miss Jeanette Taylor read from The Survey, "Our Answer to Prayer," a plea for the waifs of the slums. The selection voiced most effectively "the bitter cry of the children," and from the members of the club it received the closest attention.

The Red Cross Campaign. "Public Health and the Red Cross Seal" was the subject of Arthur J. Strawson, state manager for sale of the seals, who was introduced by the chairman as the speaker of the afternoon. Mr. Strawson said in part: "Public health is a purchasable commodity and we are gradually awakening to the fact that whatever we make of expenditure of money and time, the health of the community will be bettered in a corresponding degree. The Child Welfare committee has discovered that infant mortality is a pretty good index of community health."

For smallpox we have paid the price, said the speaker, we have insisted upon vaccination until the disease is almost a thing of the past. Typhoid too, has been found preventable and the steps towards its final eradication are beginning.

Jacksonville has made an excellent record in matters of public health but still there remains much to be done. Popular education as to the importance of public health questions, care of the unemployed better housing conditions and innumerable other lines of work offer opportunity for further activity.

In the fight against tuberculosis serums and nostrums can be of no avail. Fresh air and proper food are the only remedies. "In your community the Red Cross seal campaign can do two things. It can extend popular education and it can work toward elimination of the centers of infection. All health campaigns cost money and it is to raise necessary funds that the seal campaign is planned. All who participate must have their own knowledge advanced and thus is popular education in public health gradually pushed forward."

Much Has Been Done. Already has the sale of Red Cross seals resulted in great things. It has created positions for nurses doing public health work to the number of 5,000. It has brought about the establishment of hundreds of sanitariums. The number of lives it has saved, no one has reckoned. In Chicago alone the decrease in the number of deaths from tuberculosis has been marvelous. The work of prevention has been the chief benefit for not only have the lives of many persons actually tubercular been saved, but many more who have only been exposed have been kept from danger. The very successful in the past,

greater efforts than ever are this year to be made in the furtherance of the campaign. It is proposed to make a per capita sale of three for the state of Illinois. Morgan county has already a record of 2.16 seals per capita. "There is untold satisfaction in knowing that we have done the best, the kindest, the most scientific things possible for the cause."

PASSAVANT HOSPITAL CAMPAIGN MANAGEMENT ADOPTS RESOLUTIONS

Special Finance Committee Named to Take Charge of Funds to be Used for New Improvements and Equipment.

The work for the Passavant hospital campaign is now fairly under way, main committees have been appointed and details will at once be undertaken and Dec. 2nd the grand work of securing the funds will begin.

To authorize what has been begun and to appoint a committee to have charge of the funds as they are secured a meeting of the trustees of the hospital was held at the hospital chapel last evening and it was especially well attended. It was very gratifying to see the ministers recently stationed in the city show such an interest and the thanks of the hospital management are due them.

A fine supper was served and then Rev. W. E. Spooner was requested to offer prayer after which the business of the meeting was begun. It was explained that the work being undertaken under the direction of Mr. T. W. Davies and Mr. Edwards is to raise money only and it was deemed wise to have a committee to receive and handle this money until it is expended for the object named. It was also expressly stated that the plans for the hospital should be prepared by the trustees or persons whom they appoint, as it was of the greatest importance to have the proposed new building or buildings of the most approved type without costly errors in their plans and construction.

To that end the following resolutions were adopted:

Whereas: The board of trustees of Passavant hospital purpose to make a campaign to raise funds for the erection of a building or buildings and improvements for the hospital, and

Whereas: In asking the support of the public it is the desire of the board of trustees that the contributors feel assured that the funds so raised will be safeguarded from every standpoint, it is deemed advisable that a special finance committee be named who shall have the management and full charge of the funds raised and the disbursing of the same and

Whereas: The board of trustees reposes full confidence in H. J. Rodgers, F. J. Andrews, F. J. Waddell, E. W. Brown, Julius G. Strawn, Felix E. Farrell and Chas. A. Johnson and believing that the public will recognize their ability and fitness as representatives of this committee

Therefore be it resolved, that H. J. Rodgers, F. J. Andrews, F. J. Waddell, E. W. Brown, Julius G. Strawn, Felix E. Farrell and Charles A. Johnson be and are hereby appointed a special finance committee who shall have the management and entire charge of all the funds raised for the purpose named, retaining possession of the same until the deed to the property is secured from the present owners and when said deed is procured shall have full charge in erection of buildings and the management and disbursement of this fund it being understood, however, that the plans for such hospital buildings and improvements shall be prepared under the direction of the board of trustees subject, however, to the approval of said special finance committee.

In the event any dispute shall arise between the trustees of said hospital and the members of this committee as to any matter touching the plans or specifications or other improvements for said buildings, which cannot be adjusted between them, such matter of dispute shall be settled and determined by reference or such matter to an architect of special training and experience in hospital construction to be chosen by mutual agreement.

All vacancies occurring in this committee either by death, or resignation or failure to act shall be filled by the board of trustees.

It is understood that the first moneys collected into this fund are to be used by the committee in the payment of all the expenses of the campaign.

JOCKEY McTAGGERT WEDS TOMORROW.

Baltimore, Md., Nov. 13.—There is melodrama in the romance of Johnny McTaggart, that wee jockey who is claimed to be one of America's leading horse pilots. Johnny will get married tomorrow. He has finished his strenuous season, collected his bank-roll, and now for those wedding bells. His bride will be Miss Marie McDonald, a New Jersey girl, whose father is a prominent horseman. One day Johnny got a "nasty spill", and he was laid up in bed for a few weeks afterwards. Little Miss McDonald sent him flowers. "Then Cupid speared me for fair", admits Johnny, who hadn't had time up to then to fall in love. Then came the Brooklyn Handicap, and Johnny was to ride R. T. Wilson Jr.'s Tartar in that big event. Johnny won a "yes" from his lady-love, on condition that he would win the race. Well, Johnny won the race and his bride, as they do in the story book romances. But Johnny thinks she would have married him anyway, and so the melodramatic feature does not figure heavily in his present happiness.

Man, get under one of those fifty hats, just in at GARLAND & CO.

ENGLISH ROYAL NAMES.

The Present Reign, the House of Han-

over, Started With George I.
The use of surnames was introduced
into England by the Normans and for
a long time were used only by the nob-
ility. The earlier kings, therefore,
had no claim of any sort to a family
name, but are often designated by
some quality, as Alfred the Great, Ed-
gar the Peaceable, Edward the Martyr,
etc.

Kings do not have family names
which exactly agree with those of com-
mon people, their titles or estates more
often giving them what corresponds to
a surname. The kings from William
the Conqueror to Stephen (1066-1154)
were of the Norman line. The Plant-
agenets received their name from the
adoption by Geoffrey, Count of Anjou,
of the broom (plante de genet) as an
insignia. This name was borne by
the kings from Henry II. to Richard II.
(1154-1485).

The Tudor line, which includes the
rulers from Henry VII. to Elizabeth
(1485-1603), received their name from
Owen Tudor, a Welshman, who mar-
ried the widowed queen of Henry V.
and whose grandson was Henry VII.
The Stuart line includes the rulers
from James I. to Anne (1603-1702).
The name is derived from the important of-
fice of steward to the royal household
of Scotland.

The house of Hanover, whose fam-
ily name is often given as Guelph,
started with George I., of whom George
V. is a direct descendant.—Philadel-
phia Press.

SONG OF THE SWAN.

A Vocal Dirge About Which Poets and

Naturalists Disagree.
There is an air of legendary mys-
tery about the swan. Some swans are
mute, but most have sonorous voices
of surprising power and reach. Poetic
tradition declares that the swan sings
in dying, and so we have the familiar
phrase to indicate the last effort of a
poet—"swan song." Othello exclaims,
"I will play the swan and die in mus-
ic." And Portia says in "The Mer-
chant of Venice," "He makes a swan-
like end, fading in music."

A hundred other poets have used sim-
ilar expressions, and yet naturalists
declare that the swan does not make
any music in dying, though it may
make a noise. And these same natu-
ralists aver that the great vocal pow-
ers of swans are due to a special
sounding apparatus formed by "the
coiling of the long trachea (windpipe)
within the sternum" (breast bone).
The crane, whose trumpet call, when
a flock is setting off for a long, high
flight, can be heard from above the
clouds after the birds are out of sight,
is furnished with a similar vocal in-
strument.

The swan is famous for its longevity.
It is said to live a hundred years, and
there is at least one recorded instance
of a bird in captivity living seventy
years. It is longer lived than the
raven.—Garrett P. Serviss in Washing-
ton Post.

A Curious Trail.

All sorts of devices have been used
to mark a line of march. A unique
method of "blazing the trail" is still to
be seen in Africa. Arthur J. Hayes
mentions the subject in his "Source of
the Blue Nile."

In 1880, after a fierce battle with the
Abyssinians, the dervishes pursued
their foes as far as the lake district.
The mahdi's men had small knowledge
of geography and little topographical
intelligence. So the advance party, in
order to mark the route for those who
came after and also to guide the force
on their return journey, twisted the
saplings along the way into living
knots. The war ended, but the tied up
trees grew and flourished, but un-
couthly twisted and distorted, and are
now the only reminders of that upris-
ing of the dervishes.

The Moth and the Flame.

The moth plunges headlong into the
flames because of the way its body is
constructed. There are two symmetri-
cal points, exactly alike chemically, on
the moth's body—namely, its eyes. If
the rays of light modify the chemical
condition of one side more than the
other, then the moth's power of move-
ment is affected. There is a stronger
muscular tension on one side than on
the other, and the moth is forced to
move toward the source of light. If,
however, one of the eyes is removed
the chemical symmetry is destroyed,
and instead of plunging into the flame
it moves about in a circle.

SOCIAL EVENTS**Priscilla Club.**

Belles Lettres Hostess

To Thirty New Students
The members of the Belles Lettres
society of the Woman's College en-
tertained last night in their hall,
in honor of thirty new students. It
was a Japanese fete and the decora-
tions were in keeping with the event,
the girls all being dressed in Japa-
nese costumes. The program includ-
ed a number of Japanese songs by
Miss Ina Berryman and the reading
of "Madam Butterfly" by Miss Glee-
ker. The gathering was delightful in
every way and during the hour
Japanese refreshments were served.
Members of the faculty were also
guests of honor.

Farewell Party for

Mr. and Mrs. Geo. Deweese.

More than sixty friends and neigh-
bors gathered at the home of Mr. and
Mrs. George Deweese Saturday eve-
ning to give them a farewell party.
Mr. and Mrs. Deweese are soon to
move to Jacksonville. The even-
ing was spent with instrumental and
vocal selections and refreshments
were served. About 28 years ago
Mr. and Mrs. Deweese returned from
their wedding trip. Since then many
friendships have been made that are
not easily broken. A pleasant feature
of the evening was the presentation
of a purse of gold to Miss Lorine De-
weese who has been a most faithful
pianist for the church. The presen-
tation speech was made by the Rev.
C. G. Cantrill and the family joined
in an expression of thanks. Mr.
Deweese attempted to make a speech
but words failed to express all he
wanted to say. At a late hour the
guests departed after enjoying a
most delightful evening, and wishing
the family all good things in their
new home.

EDWARD BLACKBURN WILL

CELEBRATE HIS BIRTHDAY

Long Time Resident of Ebenezer
Neighborhood Is Eighty-two Years
Old.

Today will mark the eighty-second
birthday anniversary of Edmund
Blackburn and members of his fam-
ily will gather at the home in the
Ebenezer neighborhood in commem-
oration of the important event. Mrs.
Blackburn has been ill as a result
of a broken hip several months and
for that reason there will be no
formal birthday celebration this year
and only members of the immediate
family will be present.

Mr. Blackburn was born in York-
shire, Eng., in 1833, and came with
his parents and other members of
the family to America in 1843 on
board the sailing vessel, the "De-la-
ware." The journey thru a stormy
sea occupied more than five weeks,
the 350 passengers on the boat nearly
all being English people who were
seeking new homes and greater op-
portunities. After a residence of a
year in New York the family came
to Illinois and settled in the Ebe-
nezer neighborhood. Thus for
seventy-two years Mr. Blackburn has
been a resident of the neighborhood
where he now lives and his own home
is but a quarter of a mile from the
old family home.

As many years as are usually given
to one man's life have been spent
by him in that neighborhood. The
right of time has not robbed him
of interest in affairs or people, has
not lessened his mental acuteness
and interferes but slightly with his
physical activity. So today, with-
out undue praise, he may be termed
a wonderful old man, and he unites
in a very admirable degree the ster-
ling virtues and characteristics of
the past with the good of the present.
Mr. Blackburn's life story is not one
which might be described as a series
of momentous events but has on the
contrary been characterized by its
evenness. He has kept his face steady
looking to the future and his is
a life with but few regrets. So to-
day he still goes onward and looks
upward with a serene faith and a
calm confidence in what the future
holds.

The Electric Eel.

The electric organ of the electric eel
is in no sense a storage battery, but
a contrivance by which electric energy
is liberated at the moment when it
is required. At rest the organ shows
so small an electromotive force that a
good galvanometer is required to de-
tect it, but a sudden nervous impulse
from the eel's spinal cord raises a po-
tential of many volts with very little
heat and so small an expenditure of
matter as to defy the most expert
chemist to weigh it.

TROOP AND SUPPLY TRAINS ROB MANCHURIA

RUSSIA'S LAST CALL TAKES 3,000 FROM HARBIN.

All Business in Manchuria Not Directly Connected with War Supplies Is Practically at a Standstill—Staffs of Business Firms are Depleted.

(Associated Press Correspondence)

Harbin, Manchuria, October 8.—Russia's last call for reservists took 3,000 men from this city, which has a population of 30,000 inhabitants. Altho Manchuria is not Russian territory and Harbin is nominally a Chinese city, Russian control of the railways and other great corporations, which are developing Manchuria, has made the line between Siberia and Manchuria very imaginary. For many months after the war began Manchuria did not feel the effects of the struggle, but recently it has fallen heavily under the grip of war. Troop and supply trains, which are robbing this new country of its settlers, its livestock and its grain, pass thru the city constantly. Scarcely a home in Harbin has escaped the last sweeping call for reservists and recent casualty lists bear the names of many young Russians who left Manchuria to fight for their Emperor. All business in Manchuria not directly connected with war supplies is practically at a standstill. The staffs of business firms have been depleted and in many offices the work is being carried on chiefly by young Danes and other European neutrals.

Before the Russo-Japanese war there were few settlers in this part of Manchuria and Siberia. Since that time the Russian government has offered very favorable terms to prospective landowners and at great cost has located many peasant farmers in Siberia, near the Manchurian border. These men were carried east with their families at very low rates. Immigrant lodgings were afforded at various points along the railway and the government advanced large sums of money to get the new farmers started.

Now the very men who were brought to Manchuria at such great expense and pains are being torn from their new prairie homes to join the army. But there is little grumbling on the part of the stolid peasants. They do not question a call from Petrograd. The same power which made it possible for them to acquire a farm in this new country now demands their service and they start for training camps with the blessing of the priests who have their complete confidence.

The reservists from various towns along the western part of the Trans-Siberian Railway are taken chiefly to Harbin or Vladivostok for mobilization. At nearly every station reservists and their families are waiting for orders. The government has provided chapels in many of the railway stations located far from a Russian church. Traveling priests hold services in these occasionally, and at this time they are busily holding masses for men about to leave for the front.

At one station, east of Harbin, the correspondent of The Associated Press saw an open air mass held for 300 men who were about to enter a troop train. The men were closely grouped about the priest, with the long beard and hair, common to the clergy of the Russian church. He wore a yellow satin robe, richly embroidered in gold and held aloft a golden cross which reflected the rays of the sun, which was just setting at the edge of the vast prairie behind him. The reservists chanted the responses with unwavering voices and listened with rapt attention to the priest. Their religious fervor was shown especially by the eagerness with which they pressed forward to have their brows moistened with holy water after the priest had pronounced the benediction. Many of the reservists led their sons forward with them so they might stand together before the priest and receive his blessing.

Through the service the wives, mothers and sisters of the reservists stood at a respectful distance and listened mutely to the inspiring singing of their menfolk. They had no part in it and manifested more of the enthusiasm shown by the roughest men, standing with bare heads, completely under the sway of their spiritual adviser whose intensity of manner was heightened by his unusual garb. No man could have more closely approached in appearance the artist's conception of Jesus Christ and the priest's inspiring influence upon the peasants starting upon such an unhappy mission was little less than miraculous.

Even the tearful embraces of wives and mothers did not dampen the ardor of the men, who bravely answered the warning whistle of the waiting engine and sang the Russian hymn as the train whisked them off to an uncertain fate.

Every troop car contains an icon, a brass picture of Jesus Christ, the Virgin Mary, or one of the Saints. Usually a candle is kept burning near this after the custom of the orthodox Russian home. The soldiers seem to find great comfort in their religion, and on their long ride across Siberia, may be heard chanting hymns more frequently than other songs.

WESTMINSTER AT THE CONGREGATIONAL CHURCH
Westminster church will unite in services with the Congregational church today, owing to repairs being made to the heater.

Some Topics of the Farm

W. H. Paschall has been a livestock shipper for an extended period and has kept consistently at the business as anyone in Morgan county. Mr. Paschall confines himself to hogs and does not purchase either cattle or sheep. He buys for the most part in the west half of the county but is equally well known in some adjoining territory. For a number of years past Mr. Paschall has sold almost exclusively to the Jacksonville Packing company as he has found the market here more satisfactory than Chicago or St. Louis. He usually ships from Markham and by handling the stock that way it can be unloaded right into the yards of the packing company. The fear of cholera Mr. Paschall said yesterday had caused a good many farmers to sell their hogs before they are really ready to go. In recent days he has been paying 5 1-2 to 6 1-2 cents according to weight. A good many hogs have been put on the market weighing only about 125 lbs., and these are not very desirable from a packing standpoint as they will not "kill out" to good advantage. The hogs weighing from 200 to 250 have sold the best recently.

The corn market the past week has advanced steadily and the close Saturday was 6 1/2 for December corn. This means that local elevators can pay 5 1/2 or better for yellow corn. One offer was reported Saturday of 5 3/4 by an elevator but so far as known no corn has sold locally above 5 1/2. One reason for the increased price is said to be the fact that the crop in Iowa and Kansas is not coming up to expectations. This is particularly true in Iowa, where the yield is nowhere near what was indicated by the crop report. As one farmer said recently, "We have a heavy crop here in Morgan county and in this part of Illinois, but this might be termed a local condition and the crop generally is not heavy. Some few deliveries to elevators are reported but in most instances it has been found that corn is not dry enough to shell. Corn is frequently dry enough for ventilated crib storage when it is not at all in condition for shelling and placing in an elevator. The past two weeks have shown many instances of the market where sappy corn has been purchased and shipped with a resulting loss to the elevators. These facts have given warning to downstate elevator men and all their contracts for corn call for delivery when the grain is dry enough to shell.

Irvin Patterson has on hand about twenty-five head of steers and is uncertain as to the best way to follow in marketing them. The steers were purchased with the expectation of seeing the market at this time. They are of air quality and were light when purchased in St. Louis, in good condition for making gains on pasture. They have put on flesh satisfactorily during the late summer and early fall months but prices now are such that the chances for the expected profit look good. Mr. Patterson may decide to feed his cattle until early in the coming year. He said yesterday that after watching market conditions for the past week he was convinced that the steers would make him a little money if shipped now but that the returns would not be up to his expectations and that he was still uncertain as to what plan he would follow.

Mr. Patterson said that conditions have changed a great deal in recent years with reference to cattle. Years ago it was possible to drive thru the country and buy at reasonable prices from different farmers calves which could be fed for a period of a month and then turned profitably. More recently, probably on account of the establishment of the creameries here, there has been a tendency toward the Jersey strain of stock and this fact has lessened the chances of buying calves for feeding purposes. The farmer who is looking for calves of this kind does not want Jersey stock, as the Jersey does not have the frame or put on the flesh that makes feeding profitable.

A farmer yesterday was talking about the difficulties of present day farming and said that the business is not what is used to be and that farmers are not as successful in money making as was true years ago. In support of his argument he asked, "Where are the men like the earlier representatives of the Perib, Hem-brough, Joy and other families, who are to count with comparatively little money yet by frugality and the application of good methods were able to buy more land from time to time and became money lenders?" He went on to say that these men and others like them died and left not only large landed estates but \$30,000 and \$40,000 and \$50,000 in cash; "and where are the men," he said, "who are repeating this history today in the matter of accumulating wealth?"

The suggestion affords some food for reflection and the first thought that occurs is that times have changed. Land values have increased in very large degree since the times mentioned and a Morgan county acre which sold then for \$25 to \$30 is now rated at from \$200 to \$250. Those men gained the advantage of the increment from land as the price advanced. It might be argued that while the land value then was so

much less, that prices for the products of the farm were also much lower. One fact which was helpful to the earlier farmers was the native fertility of the soil and it is only in comparatively recent years that farmers have come to a realization of the truth that they were year after year wearing out the rich soil of Morgan county without giving anything to the soil in return. But set aside land values and soil fertility, forget about the difference in marketing conditions and then remember that if the farmers of today were satisfied to live just as their forefathers did there would be no trouble about their bank balances. With the increased values of land have come the comforts of modern life and the farmer today spends \$3 or \$4 where his parents spent \$1.

Those earlier farmers were satisfied to live more plainly and quietly than are their grandsons and granddaughters of today. There is a special reason for continuing the present day methods of living, for after all, what is the particular advantage gained if a farmer deprives himself of all the comforts of modern life simply that he may save more money and increase his lands and add to his flocks? The difference in farm living by comparing the past with the present is not more marked than with city living, and the average people today are earning more than their parents did and they are spending it. That's what money is for.

A lady suggested yesterday that nut hunters be somewhat restricted as possible dispensers of hog cholera. She says that their place is wholly isolated from any other and contagion seemed absolutely out of the question and her husband thought he was secure. But unfortunately they had a lot of walnut trees on their place a number of boys coursed the place over and next thing came hog cholera and she says she doesn't see how else it could have been communicated. It was a hard loss to bear as the man is not a person of large means.

John Boddy of Markham precinct has inherited from his father, the late Michael Boddy some excellent ideas on hog raising and fattening. Mr. Boddy still sticks to the Poland-China breed but takes great care in his selection for he admits that the Poland-Chinas have been bred down too fine. He sends to Nebraska and gets a big, sturdy, large boned boar and is sure there is no inbreeding. In this way he gets a lot of stock which is large and well favored. He is a firm believer in slops and feeds his hogs that kind of provender even until they are ready for market. He seems to have his sows farrow in early March and September and has a long shed with family partitions in it. He is careful to bed well and sees that the hogs are kindly cared for at all times. He uses plenty of slop and hauls many wagon loads of pumpkins for his porkers, boiling the pumpkins with his slop of shorts and ship stuff. He also has a good clover pasture for them. He has 75 hogs and feeds them three or four loads of pumpkins a week. He believes firmly in vaccination and feels he has given it a good test. Of all he has had treated he has lost none and all are fine and healthy. He knows of those who have neglected hog vaccination to their sorrow.

The Corn Situation.
(From Drovers' Journal.)
Flurry in the corn market, chiefly higher in recent days, has been brought about by a set of conditions which the "expert operators" have not believed were as serious as affecting good quality of the yield at first hand reports from the growing sections made them.

A spotted crop at best is had this year. Comparison of the feeding value of this year's yield with last, taking the government report as a basis, is only a little over 100,000,000 bushel increase.

Now the federal estimators are said to be at work on data as to the comparative feeding value of the crop and the figures put forth will be accepted as official.

Iowa and northern Illinois, as well as Minnesota and Wisconsin, all suffered as results of the frosts. In Iowa reports on conditions are indicative of a worse outlook there than elsewhere, but it must be taken into consideration that Iowa is a big factor in corn production. Over the northern half of that state it is now claimed that there will be little if any merchantable corn and in the southern and central part it is in a very spotted condition. Much of it will not do to hold in the crib for any length of time.

The statement that cattle and hogs are not doing well on the soft corn contradicts assertions of the Iowa experiment station workers, who contend that live stock will do moderately well on it. Suffice to say, Iowa has been hit hard, and with many of the other states showing bad spots, where in a majority of instances hogs have been turned into the cornfields to salvage the damaged crop. It is by far a corn situation than can be looked upon as influencing a cheap price a long ways off.

At the moment it is a "professional" market. Later on it is bound to be a supply and demand situation with demand for the kind that will grade pressing hard.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

ILLINOIS U., PLAINLY OUTCLASSES WISCONSIN

ILLINI PLAYS HARD, CONSISTENT FOOTBALL.

Goal From Field Yields the Only Wisconsin Score. — Minnesota Steps Closer to Championship by Defeating Chicago 20 to 7 on a Snow Covered Field.

Champaign, Ill., Nov. 13.—The University of Illinois defeated Wisconsin today 17 to 3 by playing hard, consistent football. Aino the game exhibited by the Illini showed a few flashes of brilliancy and was lacking in spectacular features, the team plainly outclassed the visitors, and only once was the Illinois goal in danger. A goal from the field by E. Simpson yielded the only Wisconsin score. In the early part of the game each team fumbled badly.

Pogue, the star Illinois back, was used effectively during his stay in the game but did not show his accustomed speed. This probably was due to the fact that he had been out of the game for several weeks. The other members of the Illinois back field showed excellent team work. The play of Squier at end stood out both on defense and offense when Illinois had the ball.

Simpson and Taylor who alternated at quarter for Wisconsin carried off the honors for Wisconsin.

Each line showed reserve strength in emergencies.

Minnesota 20; Chicago 7.
Minneapolis, Minn., Nov. 13.—The University of Minnesota football team took another step toward the Big Nine conference championship today by defeating the University of Chicago 20 to 7 on a snow-covered field. The Gophers' attack was consistently powerful, while their defense was virtually impenetrable when the Maroons threatened the Minnesota goal.

Three touchdowns—one each in the first, third and fourth period—and two goals from touchdowns represented the Minnesotans score, while Chicago counted a touchdown by Agar and a subsequent goal by Shull in the second session.

Outplayed in the line the Chicago backs had difficulty in getting away on end runs, altho Captain Russell and Cahn brought the Chicago rooters to their feet several times by brilliant dashes. Russell was easily the visitors' star and altho outpunted by Quist, his returns of the Gopher kicks evaded matters in this department. Captain Biermans' return to the Gopher line-up after two weeks' absence was auspicious, his clever work both on the offensive and defensive being a big factor in the success of his team. Long, Wyman and Balentine gave splendid support to their leader. In forward passing Chicago had most success, its four successful attempts at this style of play in the second period contributing materially to the Maroon score. Minnesota tried six passes, of which two were completed.

Minnesota was penalized for a total of fifty-five yards as against the fifteen yards charged against Chicago. Nearly 18,000 spectators saw the contest.

Harvard, 16; Brown, 7.

Cambridge, Mass., Nov. 13.—Harvard today disposed of Brown 16 to 7, without spending any of the strength saved for the rejuvenated Yale team in the big game of the season to be played next Saturday. The Crimson eleven was one of second string men with one exception, Captain Mahan and two other Harvard players went to New Haven to see the Yale team come to life. The balance of the Crimson regulars idled on the side lines.

Brown presented a powerful offense in which the serpentine runs of Polard, a negro, and the lunging advances of Andrews were most important. The Harvard team was unable to make progress consistently thru the Brown line and was greatly outshouted. After a long forward pass had put Robinson in a position from which he kicked a field goal in the first period, subsequent Harvard scores were the result of Brown lapses. Enright went over the line on three rushes following a fumble by Polard in this period and in the second period Rollins grasped a ball which had escaped Parry and dashed 52 yards for the Crimson's second touchdown. Robinson kicked the goal.

Brown urged the ball half the distance of the field by rushes in the first and second periods, reaching the Crimson three yard line where they

were held for downs. In the third period a similar advance was made but the Crimson again held firm at the critical moment. Pollard thrown back for the final down, again fumbled. He recovered a punt and ran it back 25 yards soon after, however, and Farnum was sent across the Harvard line on a forward pass. The goal was kicked by Andrews.

Score by periods:
Harvard 9 7 0 0—16
Brown 0 0 0 7—7

Yale, 13; Princeton, 7.
New Haven, Conn., Nov. 13.—Yale won from Princeton here this afternoon, 13 to 7. No gridiron classic of recent years has furnished greater thrills, individual playing prowess or form upset than this surprising triumph of the Blue over the Orange and Black. It was a case of a powerful football combination just beginning to find itself, overwhelming by brute strength an eleven far more finished in playing tactics, but lacking the ability to cope with a Yale eleven fighting desperately.

Gridiron heroes rose and fell during the struggle but none reached the heights attained by Otis L. Guernsey, whose clever field goal kicking paved the way for a Yale victory. Twice in the second period Guernsey drove the ball thru the Tiger goal posts. Both dropkicks were made from near mid-field and the performance of the Greenwich, Conn. player won him a place among the stars of football.

"Pie" Way, pitcher of the Blue baseball team, shared the glory of the victory with Guernsey for it was his fortune to scoop up a fumbled punt by Tibbott and race across the goal line for Yale's only touchdown of the game and the first the Eli's have made in the past two contests.

Close to 60,000 spectators thronged into the Yale football arena. The weather and the gridiron conditions were perfect. The lineup:

Yale (13) pos. Princeton (7)
Church Higley
C. Sheldon McLean
Black Gennett
White Gennett
J. Sheldon Hogg
Way Parisotto
Wiedmann Lamberton
Van Nostrand Glick (Capt)
Wilson (Capt) Shea
Bingham Tibbott
Guernsey Driggs
Score by periods:
Yale 6 7 0—13
Princeton 0 7 0—7

Referee—Nathan A. Tufts, Brown. Umpire—Carl Marshall, Harvard. Field Judge—W. N. Worliche, University of Pennsylvania. Head Linesman—R. S. Land, Navy. Yale scoring—Touchdown, Way; goal from touchdown, Guernsey; goals from field, Guernsey, (2). Princeton scoring—Touchdown, Driggs; goal from touchdown, Tibbott. Substitutions: Yale: Moseley for Wiedmann; Higginbotham for Church; Gates for C. Sheldon; Von Holt for Black; Allen for Moseley; Black for Von Holt; Walden for J. Sheldon; Miller for White. Princeton: M. Wilson for Higley; Moore for Shea; Larsen for McLean; Vutterworth for Gennett; Dickerman for Tibbott; Law for Driggs; Ames for Dickerman; Love for Hogg; Eddy for Moore; Bannon for Lamberton.

Pennsylvania, 9; Michigan, 0.

Philadelphia, Nov. 13.—Pennsylvania and Michigan fought on Franklin field today and neither side was able to score. It was a curious fact that each team had been defeated, the last three times it had met an opponent on the gridiron and in the fourth effort neither was able to gain a victory over the other. The game was a disappointment to the followers of the teams. Pennsylvania entered the contest a slight favorite while the Michigan supporters felt confident that, despite their disastrous season the Wolverines would pull themselves together in their last game of the year and take a victory west with them.

The playing most of the time was spirited and abounded in open field work. Pennsylvania had more chances to score than Michigan but when in the last ditch the westerners always braced and their defense was able to stave off defeat. The Pennsylvanians got within scoring distance about a half dozen times and on three of these occasions tried to kick field goals.

Quarterback Bell failed twice and left tackle Mathews made an unsuccessful try.

One of Michigan's chances to score was in the second period when she rushed the ball to Pennsylvania's 16-yard line.

Here Coach Yost's men tried a trick play. It was a fake kick formation for a placement goal, the man holding the ball for the expected kick being downed for a ten yard loss as he rose to go around Pennsylvania's right end. Michigan then tried a forward pass and the play resulted in a touchback.

Pennsylvania's rushing was more powerful than Michigan's, Williams and Derr doing great work in this line.

Manietech for Michigan was unable to gain much ground after the early part of the game as Pennsylvania's tacklers seemed to have been coached purposely to stop him. Fullback Smith, before he was forced to leave the game thru injuries, was a powerful ground gainer for Michigan. A feature of the game was the fine punting of Quarterback Bell of Pennsylvania.

Pittsburg has a baseball wonder, aside from our friend Honus. He is George Artzberger, 67 years old, who has been playing amateur ball for fifty years. Last season he took part in 61 games, batted for 326 and fielding for 370. In one game this summer he scored the winning run by singling, stealing second and third and scoring on a passed ball.

Wilbur Houck of the banking house of Dunlap, Russell & Co., expected to begin a vacation of two weeks tomorrow. Chicago and some other places figure in his plans.

JACKSONVILLE LOSES TO PEORIA

NORTHERN SCHOOL WINS BY SCORE OF 14 TO 0.

J. H. S. Played Best Game of Season — Contest Features With Long Runs by V. Reynolds of Peoria and Homer Reynolds of Jacksonville.

Peoria high school won from Jacksonville high Saturday afternoon on Illinois field by a score of 14 to 0. Jacksonville put up the best game on the home pasture thus far this season and the squad certainly displayed improvement over the earlier games of the year. The Peoria bunch have been playing some fast; teams this year and showed careful training.

The visitors entered the game somewhat chafing, believing that they would be able in easy fashion to run up a score of at least 50 points against Jacksonville, but as it was, Jacksonville played a pluckier game, and barring a punt that was blocked in the third quarter when a Peoria man fell on the ball back of the goal line for a touchdown, the score would have been only 7 points against Jacksonville. Peoria resorted very little to punting and in fact four or five punts would take in all the times they resorted to this play. Peoria used the forward pass frequently and to good advantage. Jacksonville, however, began to solve their formation on the pass play and were breaking them up in good shape.

Better Local Line. Jacksonville's line appeared stronger than in former games but always weakened at a critical time. Peoria had out a couple of good men and Jacksonville was also minus the help of Howard Reynolds, who had not sufficiently recovered from the game at Carlinville.

Barring some poor playing at times by both teams there were streaks of brilliancy which made the game interesting from the spectator's point of view. Capt. V. Reynolds' long run in the second quarter for Peoria, when he made their first touchdown, was followed closely by a still greater run by Homer Reynolds of the Jacksonville team. Jacksonville had two splendid opportunities to score but were unable to show the necessary punch at the critical moment.

Nothing on Jacksonville.

Peoria really didn't have anything on the local lads yesterday and Capt. V. Reynolds, their halfback, was easily their star. They depended upon him mostly to carry the ball and his forward passing was good. The Peoria men were much heavier than the locals but the beef didn't seem to account for very much yesterday. Coach Montgomery of Peoria brought down a lot of second string men which he expected to give a chance at the game—in fact had intended to make a number of substitutions. The facts are that Jacksonville played such a plucky game that the substitutes kept their places on the sideline during the entire contest, and after the game was over, Peoria felt well satisfied that they had won a couple of touchdowns, one of which might come under the head of luck.

How Scores Were Made.

The game started with Jacksonville kicking off to Peoria. The ball was chased up and down the field during the 12 minutes of play with neither side making any perceptible gains, Jacksonville resorting to the punt when their goal was threatened. The quarter really ended with the ball in Peoria's possession on the 40 yard line. Peoria was unable to make their downs and Jacksonville repeated the same offense. Peoria attempted three forward passes in succession and the ball returning to Jacksonville. Jacksonville punted to the 25-yard line and after making a 10-yard gain with a forward pass, Capt. V. Reynolds encircled Jacksonville's right end in a spectacular 45 yard run, making the first touchdown of the game. Reynolds kicked goal, score 7 to 0.

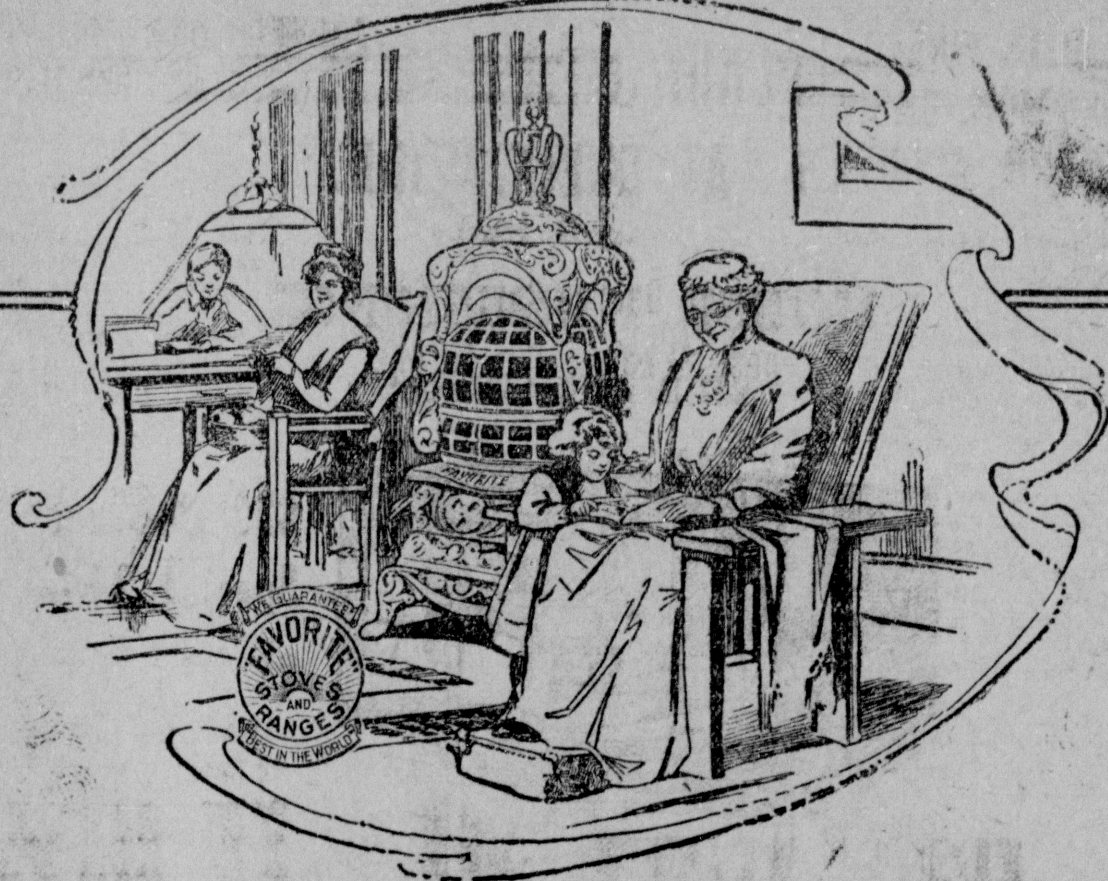

Long Run by Homer Reynolds.

Peoria kicked off again and Homer Reynolds who grabbed the sphere, repeating the performance of Capt. V. Reynolds, making a zig-zag run of 60 yards and carrying the ball to the 52 yard line. Jacksonville made a strong attempt to score but Peoria held them for downs and the visitors advanced the ball to the 45 yard line, when time was called for the half.

Peoria's Second Score.

Peoria scored again in the third quarter, which opened with Jacksonville kicking to Peoria who carried the ball down to the 45 yard line. A pass was intercepted by Robinson. Jacksonville couldn't make their downs and Molohon punted to the 20 yard line. Capt. V. Reynolds carried the ball back for 15 yards. The visitors made another gain of 10 yards by a forward pass but were unable to make their downs. Jacksonville after two fruitless attempts at gaining, kicked to the 40 yard line. The visitors chased the ball back for about 10 yards.

At this stage of the game Capt. V. Reynolds made a pretty long pass to Dirges. This followed by a couple of line bucks and an end run, brought the ball within shooting distance when Jacksonville held them for downs and the ball was chased back down the field a short distance when the local lads again carried the ball within striking distance of goal. Molohon tried a drop kick but the kick was blocked and rolled out beyond the goal posts, and Lawrence of Peoria dropped on the oval for a touchdown. Capt. V. Reynolds kicked goal. Score 14 to 0.

Will This Be Your Home?

When the snow falls, and the cold winds sweep 'round your home, will your wife and children inside be warm and comfortable and happy? Will every room in the house be opened up---every bedroom heated?

Or will the greater part of the house be closed up---unused during the entire winter? Will your children have to undress and go to bed in cold, unhealthy rooms? Will your wife be complaining of the frigid atmosphere of the few rooms that are not closed---because the stove does not heat them as it should?

Which Will be Your Home?

You can have every room in your house warm and comfortable on the coldest day of winter---and with less expense than is necessary to heat just a few rooms with an ordinary stove---if you buy a FAVORITE BASE BURNER.

A FAVORITE BASE BURNER will keep every part of your house warm all winter, and do it with from two to three tons of coal. Every square inch of the Favorite radiates heat which constantly circulates throughout the home, keeping every part of it at an even temperature, night and day.

Don't compare the Favorite with any other heating stove. The triple exposed flues and back---the "paper-tight" construction---the beauty of design---put the Favorite in a class by itself.

Fourth Quarter a Blank.

The fourth quarter was a hard fought one, the visitors making a brave attempt to add one more touchdown to their 14 points. Jacksonville worked the ball within the 18 yard line when Molohon again tried a drop kick but failed. Peoria also succeeded in working the ball down to the 15 yard line and when Molohon dropped back to punt, the kick was blocked, and at the same moment the whistle blew for time. There was only a small crowd out to witness the game, and the band failed to contribute their share to the afternoon's entertainment.

Best Treatment for Catarrh S. S. S. Removes the Cause

Specialists in Catarrh troubles have agreed that it is an infection of the blood. The laboratories of the S. S. S. Co., at Atlanta, have proven it. Once you get your blood free from impurities—cleansed of the Catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils, and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh—it is not necessary. The remedy S. S. S., discovered over fifty years ago, tested, true and tried, is always obtainable at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long standing case, be sure to write the S. S. S. Co., Atlanta, Ga., for free expert medical advice. They will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. They will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to perfect health and vigor. Don't delay the treatment. Take S. S. S. at once.

STOMACH ACTS FINE! NO INDIGESTION, GAS, HEART BURN, ACIDITY

"Pape's Diapiesin" Fixes Sick,
Sour, Upset Stomachs in
Five Minutes.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapiesin is noted for its speed in giving relief. Its harmlessness, its certain, unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—for a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them, if what they eat lays like lead, ferments and sours and forms gas; causes headaches, dizziness and nausea, eructations of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

PROMINENT LABOR MAN TESTIFIES

State Federation of Labor Official
Makes Statement of Condition.

PRaises TANLAC.

Prominent people in nearly every capacity, are daily testifying to the merits of Tanlac, the "Master Medicine" now being introduced in Jacksonville. Here is what John M. Irish, vice president of the state Federation of Labor, who resides at the Foy Hotel in Peoria, Ill., has to say about Tanlac and the benefit he derived from the use of the medicine.

"Tanalac has proved a wonderful remedy in my case. Previous to the time I obtained relief through this preparation, I suffered a great deal with my stomach, which put my whole system out of order. I became quite nervous and was unable to obtain any great amount of rest at night. It was impossible for me to eat heartily without feeling most uncomfortable afterwards. When I would get up in the morning there seemed to be a great load on my stomach, which made me feel sick all over. Finally I lost all appetite for food and nothing seemed to taste good to me.

"I was looking over the morning paper recently and noticed where a man who had stomach trouble had been benefited by Tanlac. I went to Sutcliffe & Case, where the medicine is being sold in Peoria, and bought a bottle and began taking the medicine as directed. As I said before, the medicine has brought me great relief. I feel better in several ways. My appetite has returned and I can now eat a big meal without suffering the effects of indigestion. The old stuffy feeling that was such an annoyance to me has disappeared and I am able to obtain a good sleep at night. I seem to have new strength and my nerves are more quiet than heretofore. I think Tanlac is a good medicine for a trouble like mine and can recommend it to anyone who is suffering with a similar ailment."

"Tanalac, the 'Master Medicine', that brought such relief to Mr. Irish is now being sold in Jacksonville at Coover & Shreve.—Adv.

PLAIN JAPANESE AT CORONATION

Persons Outside Court to Witness
Mikado Take Throne.

AN IMPRESSIVE CEREMONY.

Precedent of Twenty-five Centuries
Will Be Broken by a Public Function—New Emperor Will Eat Sacred
Rice Given, Tended and Harvested by
Virgins.

Tokyo.—For the first time in the history of the Japanese empire, extending over 2,500 years, an emperor is to accede to the throne in the presence of representatives of his people. That is why the coronation of Emperor Yoshihito on Nov. 19 is regarded as a supreme event in Japanese national life and why it is looked forward to with such eagerness and delight by the emperor's subjects.

Strictly speaking, the ceremony is not a coronation, but an accession. The rulers of Nippon wear no crown, but in the presence of the spirits of their ancestors they formally accede to the dignity and prerogatives of emperors. However, the coming great event is usually referred to as the coronation.

The empress expects to become a mother about that time. The emperor doubtless will go alone to Kyoto with great pomp, carrying with him in a specially constructed train of exquisite workmanship and decoration the three sacred treasures which symbolize the

EMPEROR YOSHIHITO.

authority and power of the throne—the sacred mirror, the sacred sword and the comma shaped jewel.

Religious services will be held in the Shintokoden temple, where the gorgeous throne will be placed and where will be witnessed a rare spectacle of court nobles and priests in the ancient, picturesque ceremonial robes. The foreign representatives will be ushered to their seats by the sound of flutes and drums. The doors of the sanctuary where the sacred mirror is placed will be opened and offerings spread before the altar. Then the emperor, preceded by the lord chamberlain and minister of the household carrying the sword and gem, will enter, followed by the princes of the blood, ministers of state and the members of the coronation commission. After a moment of silence the emperor will go to the altar and read an address proclaiming to the spirits of his ancestors that he has received the sacred treasures and that he then and there ascends the throne, the seat of the "Son of Heaven." The princes and princesses of the blood and other Japanese in their turn will pay homage.

At the second ceremony, to be held in the Shishiden palace, Emperor Yoshihito will announce to his subjects his accession to the throne. Members of both houses, local governors and other persons representing the people, will be present at this function, as well as the members of the diplomatic corps. In striking contrast to the last coronation, which was conducted entirely and exclusively in the presence of the court, in the coming ceremonies not only the people and representatives of foreign powers, but even a delegation of chiefs from the native tribes of Formosa will be present. This last is the idea of Premier Okuma, who wishes, while preserving the dignity and sanctity of the ceremonies, to bring in the note of democracy and popular representation.

The Daijosi or thanksgiving festivals, will take place in the Daijosi temple, dedicated to the deities of heaven, and the Suki, dedicated to the deities of earth. In these sacred precincts the emperor, alone and unseen, will eat of the sacred rice, sown, tended and harvested by virgins in the eastern and western provinces. In each case the emperor will bathe in sacred water, after which, donning special robes, he will pray successively before the heavenly and earthly deities, offering up thanks for his glorious and happy accession.

CARITAS LODGE WILL PUT ON WORK AT SPRINGFIELD

Degree Staff to be Honored at State Assembly to be Held Next Week. Jacksonville can truly boast of some fine degree workers in all branches of Odd Fellowship and the Rebekahs and their efficiency has been many times demonstrated. U. S. SENATOR HOLLISS NOT TO FIGHT SEPARATION SUIT

Prominence of Parties Gives Proceeding Unusual Interest.

Concord, N. H., Nov. 13.—United States senator Henry H. Hollis of New Hampshire will not contest the separation suit brought by his wife, when the case comes up for hearing on Monday in the Superior court. In his answer to the suit, he concedes to his wife the custody of their minor child, and acknowledges his duty to provide for his wife and daughter, and he asks the court a statement of his property and obligations, as the basis for the adjustment.

The answer of Senator Hollis was written from Newfoundland, where he had gone during the early autumn to recuperate. He states that he and his wife separated in 1912, when the wife went to Europe with their children. For some time up to last July, Senator Hollis claims, he paid his wife over \$4,000 a year for the support of herself and the children.

The Senator acknowledges that he took exception to her other action in employing as her counsel a prominent lawyer in New Hampshire, who, Senator Hollis alleges, bore him a personal grudge, and that he wrote her if she continued to employ this attorney he would not pay another dollar except what the court should award after a hearing.

In his reply to the wife's suit, the Senator states that in order to provide a generous allowance for her, he took the unusual course of continuing to practice law at great personal sacrifice for more than two years after his election to the Senate. "I know of no legal or moral obligation to continue to practice law for the benefit of those dependent upon me, when I hold an office which requires all my time, and which pays a salary of \$75,000 a year. That should be enough to support four persons," he accordingly gave up the practice of law and sold his business unconditionally and without reserve to my law partners.

Senator Hollis claims he has no income or means of income outside his salary from the government. The suit was filed last month, and it caused a stir in social and political circles. Mrs. Hollis was formerly Grace Emerson Fisher, and they were married in 1893, the year after the Senator graduated from Harvard.

Mrs. Hollis is a suffragist, and is prominent in Concord circles. In the spring of 1912, Senator Hollis left his family, and the cause was not known even to his father and other members of his family. Since his election to the Senate, he has spent most of his time in Washington, coming here occasionally to appear in a prominent law case.

CONSERVATORY NOTES.

Mr. Kritten played a violin solo and Earl Pond sang a solo at the union service in Grace church last Sunday, November 17th, accompanied by Miss Ruth Duncan on the organ.

Homer Reed sang a solo at the banquet given in Odd Fellows hall last Thursday evening, November 11th. Earl Briscoe, Harold Dunlap and Byron Carpenter played several violin solos on the same occasion.

Miss Rebecca Schelgel gave a song recital at the High School in Pittsfield, Ill., last Thursday afternoon, November 11th.

Nearly all of the members of the faculty of the Conservatory, as well as a large number of students, attended the Kreister recital in Springfield, Thursday evening, November 11th.

At the reception given by the President and Mrs. Hammekamp last Tuesday evening, November 9th, for the faculty and trustees Mr. Paul Beebe played a number of violin solos, accompanied on the piano by Mr. Munger.

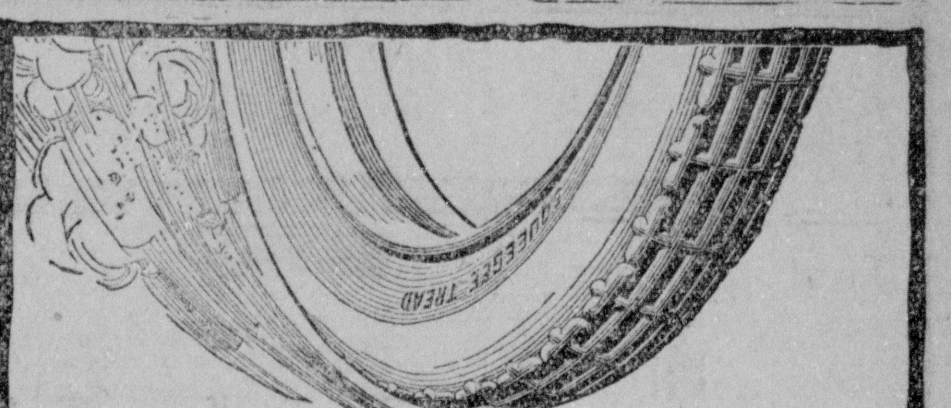

At the meeting of Phi Omega last Tuesday afternoon a paper was read by Carl Hill and Piano, violin and voice solos were given by Ruth Irving, Minnie Hoffman and Sara Frankenberg.

Owing to the phenomenal growth of the piano department in the College of Music it has become necessary to add Miss Deane Obermeyer, a graduate of the class of 1914, as assistant teacher of piano.

WILL GIVE BURGEOO. William Benson was in the city Saturday from Beardstown advertising a burgeoo and implement and automobile show which will be given in Beardstown Thursday, Nov. 18. The affair is under the auspices of the Anti-Horse Thief Association of Beardstown. At the recent meeting of the State Anti-Horse Thief Association in Springfield Beardstown was selected as the place for holding the next state meeting. In addition to the burgeoo and the implement and automobile show an address will be given by the Hon. Eliza Williams, of Pittsfield, congressman at large and the Jeffries concert band of this city will furnish the music which is assurance that that part of the program will be first-class.

Mrs. Rena French Sheppard is here from the east and is a guest at the home of Mr. and Mrs. A. L. French at Chapin.

Have your tires been 99% satisfactory during the past two years?

If in 1914 and 1915 you have used ten tires and one has "gone bad," you have only been 90% satisfied. If two have "gone bad," your score is reduced to 80%.

In 1914 and 1915, out of every million Diamond Squeegee Tread Tires, 990,000, or 99% have made good.

Was your percentage that high?

If nine friends and yourself had between you, in 1914 and 1915, bought 100 Diamond Squeegees for your cars, but one tire out of the whole lot would have required adjusting.

If it takes you 15 years to use up 100 tires yourself, in all those years only one Diamond Squeegee will cause you any trouble.

These are facts based on the law of averages—upon which billions are invested in the life insurance business.

Start using Diamond Squeegees. You can't beat "99% satisfaction" in the tire business.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if
Croup, Sick, Feverish, Constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs". Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company". Refuse any other kind with contempt.—Adv.

Needham, superintendent of motive power, here today. Shopmen affected are located at Decatur, Ill., Ft. Wayne, Ind., Moberly, Mo., Peru, Ind., Montpelier, Ohio, Stanberry, Mo., Springfield, Mo. and Luther, Mo. An increase of 1 1/2 cents per working hour was granted.

NEWMAN'S GARAGE

"AT YOUR SERVICE DAY OR NIGHT"

With the addition of more skilled mechanics to the force at this garage the best possible service is now offered to automobile owners. The equipment is here, the most complete line of accessories is here and these facilities coupled with the service of expert workmen give the definite assurance that your car can leave this garage in the condition which means there will be no trouble on road or street.

WE ANNOUNCE WITH PLEASURE THE COMING OF

Harold Neuman and Henry E. Maurer, Jr.

expert mechanics, to our mechanical department. These men are now at the garage and car owners who have met and talked with them during recent days and have seen the quality of their work know their qualifications.

Mr. Neuman left the foremanship of one of the largest garages in St. Louis to take up his work in Jacksonville. His St. Louis experience gave him a wide knowledge of both gas and electric cars and there is no problem of repair or renewal which is too difficult for him.

Mr. Maurer was for five years with the Springfield Machine Co. and in the Capital City, with its many skilled mechanics, had the deserved reputation among car owners of being one of the "very best."

These two men have a fund of automobile construction knowledge which they can apply in the most practical way and no car entrusted to this garage for general overhauling will be sent out until it meets every right test. You can be assured also that our charges for service will be the lowest possible consistent with good workmanship and the best materials.

We want your car work not once but regularly and a satisfied customer is the only one who "comes back."

Let Us Overhaul Your Car

Winter weather will soon be at hand and it is none too early to plan to have your car overhauled for the coming season. We will be glad to examine it, give some estimate of the possible expense and then do the work a little later.

That Twenty-Four Hour Service

Our service car is in readiness twenty-four hours in each day and a phone call, from a nearby or distant point will bring it quickly to your aid. As a means of furnishing "first aid" to injured cars our service is superior.

Supplies and Accessories

Our supply and accessory department includes standard makes of goods, the kind that are always dependable. You will find Federal tires here and with a record proved by years of service they afford the best "mile by mile" service.

Scientists discover the cause of bleeding gums and loose teeth

The old idea that bleeding gums and loose teeth (symptoms of pyorrhea) are due to little pieces of tartar or bone under the gums, has been exploded. Scientists have made the astounding discovery that this disease is caused by a germ which is found in every human mouth.

This germ is the most active and destructive enemy of your teeth. Are you protecting them against it? You can ward off its constant attack and escape the dread results of the disease by using the proper corrective and preventive treatment in your daily toilet.

To meet the need for this treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form

of Senreco Tooth Paste.

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube.

Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Senreco Remedial Co., 506 Union Central Bldg., Cincinnati, Ohio.

COLLEGE OF MUSIC NOTES.

The recital by Mrs. Edward A. MacDowell on Friday evening in music hall, was one of the rare treats of the college year. Simple and unassuming in personality, but with a distinct and valuable message, she charmed and interested her audience with a short talk which formed the preface to the program and delighted them with the color and mood of the composer, revealed in her playing.

The faculty of the College of Music entertained the faculty and trustees of the entire college in honor of Mrs. MacDowell, in Mrs. Hartmann's studio at the close of the program.

During her stay in Jacksonville, Mrs. MacDowell was the guest of Mr. and Mrs. Henry V. Stearns at their residence at 825 W. College Ave. A large party of faculty and students attended the Kreisler recital in Springfield on Thursday night.

Mrs. Florence Hartmann was the soloist at Grace M. E. church last Sunday morning and evening. Her singing of "What are These" by O. B. Brown, was a distinct feature of the communion service.

Miss Leota Damarin of Chandler,ville was in the city for her work with Mrs. Hartmann on Monday. Other visitors during the week have been, Miss Olive Fielder of Virginia, Mr. Milton Angler of Peardstown, who studies violin with Mrs. Day, Mr. Leslie Liscom, who studies clarinet with Mr. Jeffries, Miss Helen Henry who studies voice with Mrs. Hartmann and counterpoint with Mrs. Kolp, Miss Fern Sherwood of Springfield who studies piano with Mr. Stearns.

First Baptist Church—Minster, Percy W. Stephens. Union services with the State Street Presbyterian church will be held this morning at 10:45 o'clock and this evening at 7:30 o'clock. The services will be held at the State Street church, Mr. Stephens preaching at both services. Morning topic, "The Pre-eminent Christ". Evening topic: "Three National Perils", series, number two, "Spiritualism; its Power, Possibilities, Perils". Sunday school and B. Y. P. U. as usual at the Baptist church. Superintendent, Carl C. Weber, is anxious to have a full Sunday school attendance, as a special announcement of a future program will be made. The B. Y. P. U. will be led by Secretary A. L. Snyder of the Y. M. C. A. Mission study campaign classes Wednesday at 7:15 p. m. Only three more weeks' study. Be on time.

At the evening service of Grace M. E. church the Epworth Leaguers will be the guests of honor. They will assemble at 7 p. m. in their parlor and later enter the church in a body. The cabinet will preside. The Sunday school orchestra will lead the worship of song and also furnish special numbers. At the close of the address by the pastor the members elect will be received into membership in the league. Everybody is cordially invited to attend this service.

Westminster Presbyterian church—Sabbath school at 9:30 a. m. in church parlors. No preaching service on account of repairs being made on heating plant. The church will unite in services at the Congregational church.

Northminster Presbyterian church—Rev. Walter E. Spooner, pastor. Preaching at 10:45 a. m. and 7:30 p. m. by the pastor. The morning subject: "The Father's House". The evening theme: "The Correct Estimate of Gospel Truth." If you would like to know something of what the Gospel of Jesus Christ is, we would extend to you a cordial invitation to this service. I do not believe in baptism or repentance or prayer, but I believe in Jesus and do these things because he said to do them. The Thousand dollar day will be the last Sunday in this month. Sunday school at 9:30 a. m. Classes for all ages. Christian Endeavor at 6:30 p. m. The pastor will be the leader. Prayer meeting Wednesday evening.

Central Christian Church—M. L. Pontius, minister. Bible school at 9:30. During this service the school will be addressed by the Evangelist Rev. Brandt. Morning worship at the usual hour, 10:45. Rev. Brandt will preach on the theme "A Reason for the Hope." Christian Endeavor at 6:30. Evening service at 7:30. The subject of the sermon "Paul and Agrippa." The public is cordially invited to all of these services.

WAVERLY.

The Baptist church announces a revival meeting to commence within a short time. Rev. Percy W. Stephens of Jacksonville will be the evangelist.

Born, to Mr. and Mrs. Benjamin Darley, November 9, a daughter, T. H. Hmedley, who learned the printing business on Waverly's first newspaper, the Gazette, established in 1869, has recently sold the Lacyne, Kansas, Record, which he published for several years and has accepted a position with the Newton, Kansas Daily Kansan.

Mr. and Mrs. Orr Allyn and babe have returned to Urbana after a short visit at the home of A. C. Moffet. Mr. Allyn is a member of the faculty of the University of Illinois. B. O. Wilkinson and family have moved to Bloomington.

Revival services are in progress at Appaloosa church, two miles west of town. Some of the Waverly pastors have been assisting Rev. Mr. Johnson, the circuit pastor, in conducting the meetings.

Basket ball is now claiming the attention of the high school athletes. Twenty-five candidates have been reported for practice and Coach Colbert has some excellent material from which to pick a team.

The W. W. class is the name of a new class organized at the M. E. Sunday school. C. N. Richardson has been chosen teacher.

Richard Stanley, Herbert Challinor and Thomas Pozzard from the region of Joy Prairie were attending to business matters in the city yesterday.

THE FREE KINDERGARTEN.

So unobtrusively has the work of this institution been carried on, that it is doubtful if many, apart from the regular subscribers, are aware that this praiseworthy school exists. Nevertheless its great usefulness cannot be questioned. It would be hard indeed to even estimate the worth to our community of this charity during the past ten years. To tell how many burdened homes it has relieved, how many drab lives it has made bright, or how many hearts of the little ones have had the lessons of truth, purity and the sweet gospel instilled into their very being, so preventing the entrance of the evil waiting everywhere about. To set the child in the early years, and pre-empt the life for right conduct, is the first and final problem society has to solve.

The free kindergarten has well been called "the Christly Charity of Jacksonville". Tho in silence the work has been pursued, with very little of fanfare, banquet or booster campaign, with the years it has gone ever deeper into the hearts of the people. No one studying the workings of this undertaking has ever lost interest, and new friends are quietly being made. A little over a week ago the M. C. L. came bringing with them a well-filled basket of clothing, no second-hand stuff, all nice, serviceable garments, made with their own hands. The young ladies of the Woman's college are asking what they can do. Other societies and Sunday school classes will help, but the school needs and surely merits, the support of all.

The public are cordially invited to visit the kindergarten rooms over Graham's hardware store, any morning from 9 to 11:30, where Miss Clarabel Hopper with her assistants, the Misses Alice Reaugh, Dorothy Leek and Agnes Sorrells will bid all welcome.

The following constitute the board of directors:

Mrs. Lloyd Brown,
Mrs. L. W. Chambers,
Mrs. John Cherry,
Miss Lillian Davis,
Mrs. L. S. Doan,
Miss Mary Dummer,
Mrs. W. H. H. King,
Mrs. Harrison King,
Mrs. Charles Minter,
Miss Ida Marsh,
Miss H. K. Phillips,
Rev. R. O. Post,
Miss Janette Powell,
Mrs. J. R. Robertson,
Miss Millicent Rowe,
Mrs. C. H. Russell,
Mrs. E. G. Smith,
Mrs. C. F. Stearns,
Mrs. F. R. Stebbins,
Rev. Percy W. Stevens,
Miss Eva Williams.

Miss Ma Marsh serves as treasurer, and any check sent to her address, 1512 Mound avenue, drawn to the order of the Free Kindergarten, will be duly acknowledged and applied to the gracious work.

WOMAN'S COLLEGE NOTES.

Monday, Nov. 8th, the Phi Nu society entertained a number of the new students at a breakfast at the Colonial Inn. The breakfast took place at the more formal dinner, and was greatly enjoyed by the large number present. Dr. and Mrs. Barker and Miss Mothershead were among the guests present.

Monday night Miss Gleckler read "The Taming of the Shrew" to an audience that numbered over five hundred. She showed herself perfectly at home in all of the characters which she represented. Miss Lazelle is planning to give her recital on Nov. 18th. All friends of the college and those interested in hearing her sing are cordially invited to be present.

Mr. Houck, Mrs. Lambert and Dr. Rule are in various portions of Central Illinois trying to interest friends in the college endowment.

Dr. Harker is in DuQuoin, called there by the serious illness of an uncle.

Dr. Harry W. Laidler, an expert on economic affairs, was a guest at the college Wednesday afternoon and evening. In Music Hall at four o'clock that afternoon he gave a lecture on the "Why of Woman's Suffrage," to an interesting and appreciative audience. The same evening he talked to the students on Christian Socialism, bringing out a number of interesting points.

Thru the courtesy of the Wireless Club of the city the college is now receiving absolute time from the government observatory in Washington each day.

Mrs. MacDowell, widow of the famous composer, gave a delightful lecture recital in Music Hall Friday night. She prefaced the recital by a brief description of the MacDowell Memorial and what it means to the young composers of this country. Following the recital the music faculty entertained for Mrs. MacDowell informally in Mrs. Herlihy's studio. She was guest of Director and Mrs. Stearns during her stay in Jacksonville.

The Belles Lettres society entertained in a delightful manner for the new students Saturday evening. Everyone was made to feel perfectly at home, and a splendid time was enjoyed. These parties always mean a great deal to the new students, and has become one of the attractive features of the school life.

Friday, Nov. 12th, was the anniversary of the definite beginning of student government. This was cleverly represented in the regular chapel service of the morning by a number of scenes acted out by the students showing conditions in the dormitory life before student government was installed and after they were under its provisions. In the evening a jollification concluded the festivities of the day.

Four hundred Japanese Barberry bushes have been planted around near the foundations of the buildings. This completed the work which started some years ago.

The School of Fine Arts has given the College Library a copy of Owen Jones' "Grammar of Ornament," a very expensive and valuable work on design. The book is now out of print and the college is very fortunate indeed to get possession of a copy.

Word has just been received of the birth of a son to Mr. and Mrs. Wallace C. Riddell. Mrs. Riddell was formerly Miss Elizabeth Harker.

Mrs. Roy McKinney and sister-in-law, Miss Nannie McKinney, were representatives of Lynnville in the city yesterday.

OUCH! ACHING JOINTS, RUB RHEUMATIC PAIN

Rub Pain Right Out With Small Trial Bottle of Old "St. Jacob's Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop "drugging" it! Rub soothing, penetrating "St. Jacob's Oil" right into your aching joints, and relief comes instantly. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and can not burn the skin.

Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacob's Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains.—Advertisement.

DOCTOR PRESCRIBED VINOL

To Restore Strength to This Weak, Nervous Woman.

Many fair-minded doctors prescribe Vinol because they know of what it is made, viz.—the medicinal extractives of fresh cod livers, peptonates of iron and beef peptone, without oil or grease, in a mild tonic wine. They know these are the oldest and most famous tonics. Read the result in Mrs. Mason's case.

"I keep house for my little family of two, and got into a weak, nervous, run-down condition. I was tired and weak and did not know what ailed me. My doctor prescribed Vinol. I noticed an improvement before I had finished the first bottle, and I am now feeling fine and doing all my housework." Mrs. M. S. Mason, 203 Passaic St., Trenton, N. J.

Every weak, nervous, run-down person, feeble old people and delicate child in Jacksonville should try Vinol on our offer to return their money if it fails to benefit. Lee P. Alcott, Druggist, Jacksonville, Ill.—Advt.

NOTABLE BIRTHDAYS TODAY

Nov. 14.

General Savoff, the military leader of Bulgaria, who is directing the blow that threatens the very life of Serbia, is 58 years old today. Savoff was minister of war when the big European war broke out. Like the leaders in the other Balkan States, when the clash of the world's armies echoed on all sides, Savoff immediately set about to put the Bulgarian forces in their most formidable condition. Americans who knew of conditions in the Balkans declared that Bulgaria would sooner or later throw in her lot with the central powers. The only thing that held her back was the threatening attitude of Greece. The diplomats paved the way for Greek neutrality, thru the family connections of the Kaiser on the throne of Greece and the dogs of war were then unleashed again, it was hard-pressed Serbia. The world is watching a new Belgium, another tragedy of a people sacrificed and uprooted. It is feared that before reinforcements in the shape of big forces of the Allies strike back at the Bulgarian invasion, little Serbia will be crushed. Savoff was born at Haskovo, Bulgaria, on Nov. 14, 1857. He was sent to the military school at Sofia, and entered the artillery branch of the service. He was sent to Italy, France, Austria and Germany to view the maneuvers of the armies. Finally he took a course in the academy of the General Staff in Petrograd. Ferdinand recognized his ability and made him Minister of War. He organized the artillery forces of Bulgaria with Krupp guns, and drilled his own officers at Sofia. He made the military school one of the best in Europe. It was Savoff's trained army that was hurled against the Servians a few months ago, and it is Savoff the French and British will have to defeat before they can stem the tide of German and Austrian invasion of Serbia.

Lincoln and John Hay

(From the Globe-Democrat.)

Richard Watson Gilder once said that amid all his trials Lincoln had one compensation in the White House—John Hay. The truth of that remark impresses one anew in reading these delightful volumes (The Life and Letters of John Hay, by W. R. Thayer), made up as they are so largely of Hay's own letters and journals, and sparkling at every turn with his wit and high spirits. Like Mr. Thayer's admirable life of Calvary, this life of John Hay will take its place without challenge among the foremost books of its class. It is not a formal biography, but a well edited collection of Hay's intimate letters and diary findings held together by a slender thread of "life." It is based on a memorial of similar nature published privately by Mrs. Hay shortly after her husband's death, in 1905, but Mr. Thayer has drawn upon much larger store of materials, both private and official, and has handled them thruout with taste and judgment of a high order. The desire for truth has led him to admit the public to some scenes of surprising intimacy.

John Hay playfully called himself a man without a state, for he had been born in Indiana, brought up in Illinois, educated in Rhode Island; had learned his law in Springfield, Ill.; his politics in Washington, and diplomacy in Europe; in short, he was "nothing but an American." Near the close of his life he wrote to his brother-in-law, Mr. Mather that he had been blessed with more success and happiness on a smaller endowment of ability than any man in history; but no one who comes in contact with his flashing intellect, in these letters will accept this modest estimate.

Fortune did favor him, however, and one of her earliest favors was the chance that sent him to study law in his Uncle Milton's office, next door to Lincoln's and made him the assistant of Lincoln's private secretary. Thus at the age of 22 he had the rare experience of going to live in the White House for four years on intimate terms with the nation's greatest president during the nation's greatest crisis.

He lived to be ambassador to Great Britain and secretary of state under both McKinley and Roosevelt, the brightest pages of his story are still those of the brilliant days of youth spent with President Lincoln. Nicolay had charge of the heavy official correspondence, and Hay was general utility man, doing everything from writing informal letters and receiving callers to escorting Mrs. Lincoln or amusing the Lincoln boys on rainy days. He was too busy to keep such a diary as Gideon Welles did, but his journal, the fragmentary, is treasure trove, every bit of it.

So familiar was the companionship of Nicolay and Hay with the president that even they, the future authors of the greatest of the Lincoln biographies, were slow in realizing his greatness. They loved him, and in private dubbed him affectionately the Tycoon, but not till after the battle of Gettysburg did Hay write to Nicolay in this vein:

"The Tycoon is in fine whack. I have rarely seen him more serene and buoyant. He is managing this war, the draft, foreign relations, and planning a reconstruction of the Union, all at once. I never knew with what a tyrannous authority he rules the cabinet till now. The most important things he decides and there is no cavil. I am growing more convinced that the good of the country absolutely demands that he should be kept where he is till this thing is over. There is no man in the country so wise, so gentle and so firm."

The intimate talks with Lincoln recorded in Hay's diary are sometimes rather startling in their frankness, and one gets many glimpses of Lincoln in homely undress. As Mr. Thayer remarks, this pithy journal furnishes some of the most vivid flashlight pictures of the man in intimate moments or on historical occasions. Hay seems to have missed the deep significance of the Gettysburg address, but he had not missed the agony in Lincoln's voice when he came upon him unawares gazing down upon the Potomac for the ships that were to bring the first troops, and heard him exclaim to himself:

James E. (Ted) Meredith, famous American sprinter, 23 years old today.

Russians make further advance toward Cracow.

"Why don't they come! Why don't they come!" Of Lincoln's unconventional ways these two extracts tell:

The president came in last night in his shirt and told me of the retirement of the enemy from his works at Spottsylvania and our pursuit. I complimented him on the amount of underpinning he still has left, and he said he weighed 180 pounds. Important if true." (May 14, 1864.)

"A little after midnight the president came into the office laughing, with a volume of Hood's works in his hand, to show Nicolay and me the little caricature. 'An Unfortunate Being,' seemingly utterly unconscious that he, with his short shirt hanging about his long legs, and setting out behind like the tail feathers of an enormous ostrich, was infinitely funnier than anything in the book he was laughing at. What a man it is! Occupied all day with matters of vast moment, deeply anxious about the fate of the greatest army in the world, with his own plans and future hanging on the events of the passing hour, yet has such a wealth of simple, homely and good fellowship that he gets out of bed and perambulates the house in his shirt to find out, that we may share with him the fun of poor Hood's queer little conceits." (April 20, 1864.)

We get another and more typical glimpse of Lincoln in the following diary entry:

"I said to the president today that I thought Butler was the only man in the army in whom power would be dangerous. McClellan was too timid and vacillating to usurp; Grant was too sound and coolheaded and unselfish; Banks also; Fremont would be dangerous if he had more ability and energy. 'Yes,' says the president; 'he is like Jim Jett's brother. Jim used to say that his brother was the d—dest scoundrel that ever lived, but the infinite mercy of Providence he was also the d—dest fool.'"

It is in John Hay's familiar letters that his fun bubbles forth most spontaneously. It often hits the foibles of his best friends, from Lincoln in the war days to Whiteley Reid or Theodore Roosevelt in later times, but his bright darts are always without malice, and are as freely turned upon himself as upon others. His playful notes to Nicolay are frequently gems of light badinage. For instance:

"I am getting along pretty well. I only work about twenty hours a day. I do all your work and half of my own, now you are away. Don't hurry yourself. * * * This town is as dismal now as a defaced tombstone. Everybody is gone. I am getting apathetic and write blakely letters for the Chronicle, from which W. extracts the dirt and fun and publishes the dreary remains."

A year later under similar circumstances, he writes:

"I went last night to a sacred concert of profane music at Ford's. Young Kretschmar and old Kretschmar were running it. He and I both sang; and they kin if anybody kin. The Tycoon and I occupied a private box, and both of us carried on a hefty flirtation with the M. girls in the files. * * * I am alone in the White petshouse. The ghosts of 20,000 drowned cats come in nights thru the south windows. I shall shake my buttons off with ague before you get back."

And here is a note not wholly jocular:

"My Dear Nico—Don't in a sudden spasm of good nature, send me any more people with letters to me requesting favors from Stanton. I would rather make the tour of a smallpox hospital."

The larger part of the first volume is devoted to letters and journals of the White House epoch in Hay's life and it is still the richest in interest in spite of all that has been written about it. Once the young secretary was sent to Niagara to help Horace Greely on his wild goose chase after peace commissioners, and again he was sent to Florida to get Unionist signatures to the oath of allegiance. A few weeks before Lincoln's assassination he accepted an appointment to the American legation in Paris, and thus began the diplomatic and political career that filled his later life.

REVELATION.

I have been down a lonely road,
It would not end.
It took me into solitude
Without a friend.

It took me out of sight and sound
Inimitably far
Into the dark heart of a night
Without a star.

It took me into polar space—
A frozen sea,
Or such a dim, dead, desert place
No life could be.

I thought that ne'er a darker way
Had mortal trod,
But sudden broke the shining day,
And I found God.

But how the vision came to me
I cannot tell;
To the soul's self 'tis mystery
And miracle.

WORLD'S MARKET NEWS

ASSUMPTIONS THAT EXPORT TRADE WILL ENLARGE, LIFT WHEAT PRICE

Outcome Is a Steady Close at 7/8 to 1 Cent Net Higher—Gains Are Scored by Other Speculative Articles.

Chicago, Nov. 13.—Assumptions that export trade from the United States would soon become larger encouraged bullish sentiment today in the wheat trade. The outcome was higher, with December at \$1.05 1/2 and May at \$1.06 1/2.

Gains were scored also by other speculative articles—corn 1/4 to 1/2 cent, oats 1/4 to 1/2 cent and provisions a shade to 1/4 cent.

Leading bulls in wheat took the ground that foreign developments appeared to be directing the immediate European demand more and more to this country. Decreasing arrivals in the northwest had considerable effect in gaining additional friends for the bull side of the weak market. In this connection gossip was current that much wheat was being shipped from Minneapolis all rail to New York for export. Due notice was also taken of advices from Kansas City telling that demand there was brisk.

Demand for corn broadened out for a notable degree especially on the part of rural dealers. Despite heavy profit-taking by some prominent longs, the upward tendency of prices could not be overcome. Oats hardened in sympathy with corn. Gains were somewhat checked today by knowledge that receipts here for the week had been the largest for any corresponding week in five years.

Provisions responded to the strength of hogs and grain. Export sales were said to have reached an average of more than twice the normal total.

SPECIALTIES SHOW FURTHER STRENGTH; STANDARDS REFLECTED

War Shares, Automobile Issues and Some of the More Obscure Industrial Record Gain Ranging from 2 to 13 Points.

New York, Nov. 13.—The only distinguishing feature of today's gain further strength of specialties and the continued neglect of standard stocks. War shares, automobile issues and some of the more obscure group, but high priced industrials including a few of the tobacco group, recorded gains ranging from 2 to 13 points, while railway investments moved within extremely narrow limits, when quoted at all.

London was again active on the selling side. Except for the specialties, however, final prices were in conclusive. Total sales aggregated 335,000 shares.

Sentiment in conservative circles was inclined to greater caution for which the resumption of activity in specialties was partly accountable.

Local banks made an actual cash gain of about 12,000,000 loans expanded by \$26,000,000 and deposits by over \$42,000,000 with a gain of approximately \$5,000,000 in excess reserves.

Mixed changes were shown by the exchange markets. London easing a trifle from yesterday's better rates, while Paris and Berlin were lower, all on light offerings.

MAKING MUSIC BOXES.

Great Skill and Meager Pay For the Experts of Geneva.

One big industry of Geneva, Switzerland, is the manufacture of music boxes. Thousands of men, women and children are employed in the factories, one of which was visited by a young American, who thus writes about the visit:

An attendant invited him to take a seat. He did so, and strains of delightful music came from the chair. He hung his hat on a rack and put his traveling staff in the stand. Music came from both rack and stand. He wrote his name in the visitors' register, and on clipping his pen in the ink the music burst forth from the inkstand.

The manager of the factory explained the process of making music boxes, a business which requires patience and nicety.

The different parts are made by men who are experts in those parts, and they do nothing else year in and year out.

The music is marked on the cylinder by a man who has served several years of apprenticeship. Another man inserts in the marked places pegs which have been filed to a uniform length. The comb or set of teeth which strikes the pegs and makes the sound is arranged by a man who does nothing else. The cylinder is then revolved to see that every peg produces a proper tone.

The most delicate work of all is the revising of each peg. It is done by a workman who has a good ear for music. He sees that each peg is in its proper place and bent at the correct angle.

When the instrument is in its case an expert examines it to see that the time is perfect and good.

The best workmen—those who mark the cylinder and adjust the pegs—earn \$1.80 a day, after serving an apprenticeship of ten or twelve years. An ordinary workman earns \$1 a day.—St. Louis Globe-Democrat.

POISONOUS SNAKES.

They Are Absolutely Proof Against Their Own or Other Venom.

Snake venom is a transparent fluid, yellowish in color and of about the consistency of human saliva. When dried it takes the form of flaky yellow crystals. In this shape or dissolved in alcohol or glycerin it will remain unaltered and will preserve its poisonous properties for an indefinite period. No satisfactory chemical analysis has ever been made of it, but it seems to be a very complex albuminous compound. A curious discovery recently made is that the blood of venomous serpents is itself poisonous, containing as it does the principles that are concentrated in the secretion of the venom glands.

Venomous snakes are themselves absolutely venom proof. Rattlesnakes dosed by injection with large quantities of their own or other venom have shown not the slightest ill effects. Another remarkable fact is that serpent venom is harmless to human beings or other animals if taken internally. The late Dr. S. Weir Mitchell found that one-fourth of a drop of rattlesnake poison would kill a pigeon if given by hypodermic injection, but a pigeon fed with six drops a day for three successive days suffered not at all in consequence.

Professor Mangili, a pioneer investigator in this line, had an assistant who boldly swallowed all the venom that could be extracted from four large vipers. No bad effects followed. The same negative result was noted by Professor Baird, at that time secretary of the Smithsonian Institution, who ate the venom glands of a rattlesnake. As recently ascertained, serpent venom in such circumstances is harmless, because it cannot pass through the mucous membrane that lines the stomach, and it undergoes changes during digestion that allow it to enter the blood as an innocuous substance.—Every Week.

Trap For Quotation Experts.

If any one wants a catch question to spring on a gathering of self confessed literary sharps let him ask whence comes the quotation, "One touch of nature makes the whole world kin." This is one of the six best sellers in the world of quotations, yet not one person in a hundred knows where it comes from. It is comparatively easy to guess the author, but almost impossible to find a person who can name the work.

One could build any number of parlor games around "One touch of nature makes the whole world kin." Try it.—Spokane Spokesman-Review.

Never If Not Better.

"Can't you use a less hackneyed expression than 'He liked for the tall and uncultured timber?'" asked the editor. "Well," said the young reporter, "I might say 'He beat it to the forest reserves, where the weeping willows have never had their eyelashes trimmed.'"—Boston Truth.

Rained Pitchforks.

"Did you ever see it rain pitchforks here?" asked the city man in the country. "Sure," replied the farmer. "My neighbors gave me a pitchfork 'shower' when I was married."—Yonkers Statesman.

Johnnie's Joke.

"Pa, does the sun ever rise in the west?"
"Certainly not, my son."
"How dark it must always be out there."—Boston Transcript.

One example is worth a thousand arguments.—Gladstone.

FIRE DESTROYS STOREHOUSE AT BURLINGTON YARDS IN AURORA

AURORA, Ill., Nov. 13.—This city was aroused from slumber at 3 o'clock this morning by a series of deafening explosions which shook the ground violently, rattled windows and showered the town with bits of burning wood and debris.

The thundering came from the Burlington railroad shop yards where a \$150,000 fire destroyed a storehouse in which huge casks of acetylene gas were stored. The gas is used in welding in the Michigan shops.

By heroic efforts the fire department prevented the fire spreading from the store house to other buildings and equipment valued at several million dollars.

NEW BOOKS AT THE PUBLIC LIBRARY.

For Reference.

McLaughlin and Hart—Cyclopedia of American Government. A co-operative work of reference with contributions by some 250 students and practical experts in government and administration. The services of several authors have often been called upon to treat a single subject; as the articles are signed their varying dependability can be determined. The range of topics is wide, covering the mechanism of government in the nation, states, and municipalities of the United States, Canada, Central and South America with some treatment also of the policies of European governments. Social welfare work as related to government and various topics in public hygiene and social service are treated. His full subject index.

Pease—The County Archives of the State of Illinois.

This report edited by Theodore Calvin Pease is volume twelve of Illinois Historical Collections Concerning the value of these county records Mr. Pease says "They are not simply the material of history; they are the very incarnation of the state's past. Only when the people of Illinois are content to live in the present and ignore the past, may they logically permit their county records through the negligence of county officials to perish in whole or in part; when they do so, they will estimate their records at a lower rate than that at which similar records are appraised by the intelligent opinion of the civilized world."

HIGH SCHOOL ENGLISH TEACHERS FORM CLUB AT QUINCY MEETING

Miss Anna E. Day, Miss Elizabeth Russel, Miss Frances Marie Scott and Miss Anna M. English were in Quincy Saturday attending a meeting of high school teachers of English and assisting in the organization of a club which will hold meetings three times a year and will have as its object comparison of methods, furtherance of the profession of English teaching and standardization of English work in the schools concerned. Fifteen teachers were present, including representatives of Carthage, Hannibal and Keokuk. The club was formed at the suggestion of the state committee of English clubs and is similar in form and aim to a number of other organizations in Illinois.

The visitors were guests of the Quincy teachers at luncheon Saturday at the Hotel Newcomb and after the business session they attended the Keokuk-Quincy football game. At the meeting, Miss Marie Kleidisch of Keokuk led a discussion on "How Intensive a Study of the Classics is Practicable?"

Miss English left the Jacksonville teachers on the return journey, stopping at Versailles to spend the day with friends.

DR. W. C. DAY DIED SATURDAY NIGHT AT WHITE HALL HOME

Former Widely Known Physician of Winchester Passes Away at the Age of 78 Years—Body Will Be Cremated at St. Louis.

Dr. W. C. Day died at his home in White Hall Saturday evening at 6:15 o'clock. Deceased was 78 years, 10 months and 20 days old at the time of death. He was born in Hopefield, Ark., but had been a resident of this state for 45 years. For a good many years Dr. Day practiced his profession in Winchester and it was only some eight years ago that he removed to White Hall.

He was the father of Dr. J. Almond Day of this city and also leaves another son, Dr. L. R. Day, of Winchester and a daughter Miss Gertrude Day of White Hall.

Brief funeral services will be held from the residence in White Hall Monday morning at 10 o'clock. The remains will then be taken to St. Louis for cremation. A more extended obituary will be given later.

FARM SUPPLY COMPANY HAS ANNOUNCED CORN SHOW

Good Prizes Are Offered Competitors and Interest Will be Keen.

The Jacksonville Farm Supply company is frequently coming to the front with some new "stunt" which interests the public. The latest is the corn contest which the firm has just announced. Every farmer whether or not he is a customer of the Farm Supply company, can enter the contest and stands a chance of carrying off one of the dandy prizes offered. All that is required is for a farmer to take the six best ears of yellow or white corn he can find in his field to the office of the company and there register his name. The first prize offered is a one-hole corn sheller, with fan and feed-table, and the second prize a big all-wool horse blanket.

There are two sets of prizes, one for yellow and the other for white corn, and in addition there is a grand prize contest which will interest the boys. Any boy under 18 years of age can enter corn in this class in his own name and if he wins his reward will be a J. D. Tower surface cultivator.

Judged by the interest shown in every Farm Supply company enterprise of the past, there will be a lot of interest in this contest, not only because of the valuable prizes but because the farmers will want to see an exhibit of the best corn in the county raised in this great corn year. The contest is to close Saturday, Nov. 20, and the concluding event will be when the whole supply is auctioned off. The proceeds of the sale will be divided between Passavant hospital and Our Savior's hospital. The Farm Supply company "bunch" is full of enterprise and "ideas" and this very fact gives added interest to anything they undertake.
